CONTRACT and GENERAL WHOLESALE PRICE LIST OF BURPEE'S FLOWER SEEDS

FOR THE SEED TRADE ONLY

Crop of 1936 ✓

On our Floradale Farms in California we annually grow large acreages of flowers for seed. *Sweet Peas* have been our leading specialty, but as *Zinnias*, *Asters*, *Larkspurs*, *Calendulas*, and many other flowers grow to perfection under the ideal climatic conditions of California, we have been specializing in them, too. We can highly recommend our strains—you cannot buy better.

All Burpee Flower Seeds are grown from carefully selected stock seed. Our fields are rogued most thoroughly and continuously during the growing season to insure the very *highest quality*.

We extend a cordial invitation to the Seed Trade to visit our Farms. We want to thank our many friends for their generous patronage, and we solicit their further orders with the assurance that they will receive *Seeds of the Highest Quality*, whose merits are proved by the large quantities we ship each year to all parts of the world.

CONDITIONS OF DELIVERY

On all orders placed early we agree to plant during the season of 1936 sufficient land which should produce, under normal conditions, the desired quantity of seed. Should the outcome of the crop be lower than estimated, orders will be filled pro rata. Crop failure or other causes beyond our control release us entirely from delivery.

We will accept contracts only so long as the conditions of the crops are favorable enough to justify our accepting same. We further reserve the right to change any or all prices in this list except on orders received before May 1, 1936.

If interested in large quantities of any of the seeds herein offered, we shall be glad, where possible, to make you special prices.

TERMS

All seeds are quoted F.O.B. Philadelphia, Pa., for delivery after harvest crop of 1936.

Bags and containers will be charged at cost and are not returnable.

Terms to our Regular Customers and Houses of Established Credit: Sixty days net from date of invoice.

We give no warranty, expressed or implied, as to the purity, description, quality, productiveness, or any other matter of any seed we sell at wholesale prices, and we will not be responsible in any way for the crop.

Hundreds of Acres of Flowers are grown every year for Seed Production at Burpee's Floradale Farms, California

Burpee's Floradale Farms Where Burpee's Quality Seeds are Grown

Our famous Seed Farms and Experimental Grounds are ideally located in the fertile Lompoc Valley, Santa Barbara County, California. The rich, deep soil, the moderate climate, and the heavy night dews all combine to give the seeds grown here exceptional vigor, vitality, and hardiness, which assure sturdy growth and successful blooming wherever they are grown. The best assurance you can have of giving your customers the utmost satisfaction is to sell Burpee's Seeds, especially when you can buy Burpee Quality Seeds at the attractive low prices quoted in this Book.

A corner of a block of Marigolds and Zinnias is shown in the picture. Each year it has been necessary for us to increase our acreage on these two popular flowers, as well as on Asters, Snapdragons, Petunias, Calendulas and many other flowers, so as to take care of the correspondingly increased demand for Burpee Quality Seeds. Sweet Peas have always been one of the notable specialties at Floradale Farms. There are hundreds of acres of them, and when in bloom, they form one of the wonder-sights of America. We extend a cordial invitation to the Seed Trade to visit our Farms.

Giant Double Sweet

Semi-Dwarf or

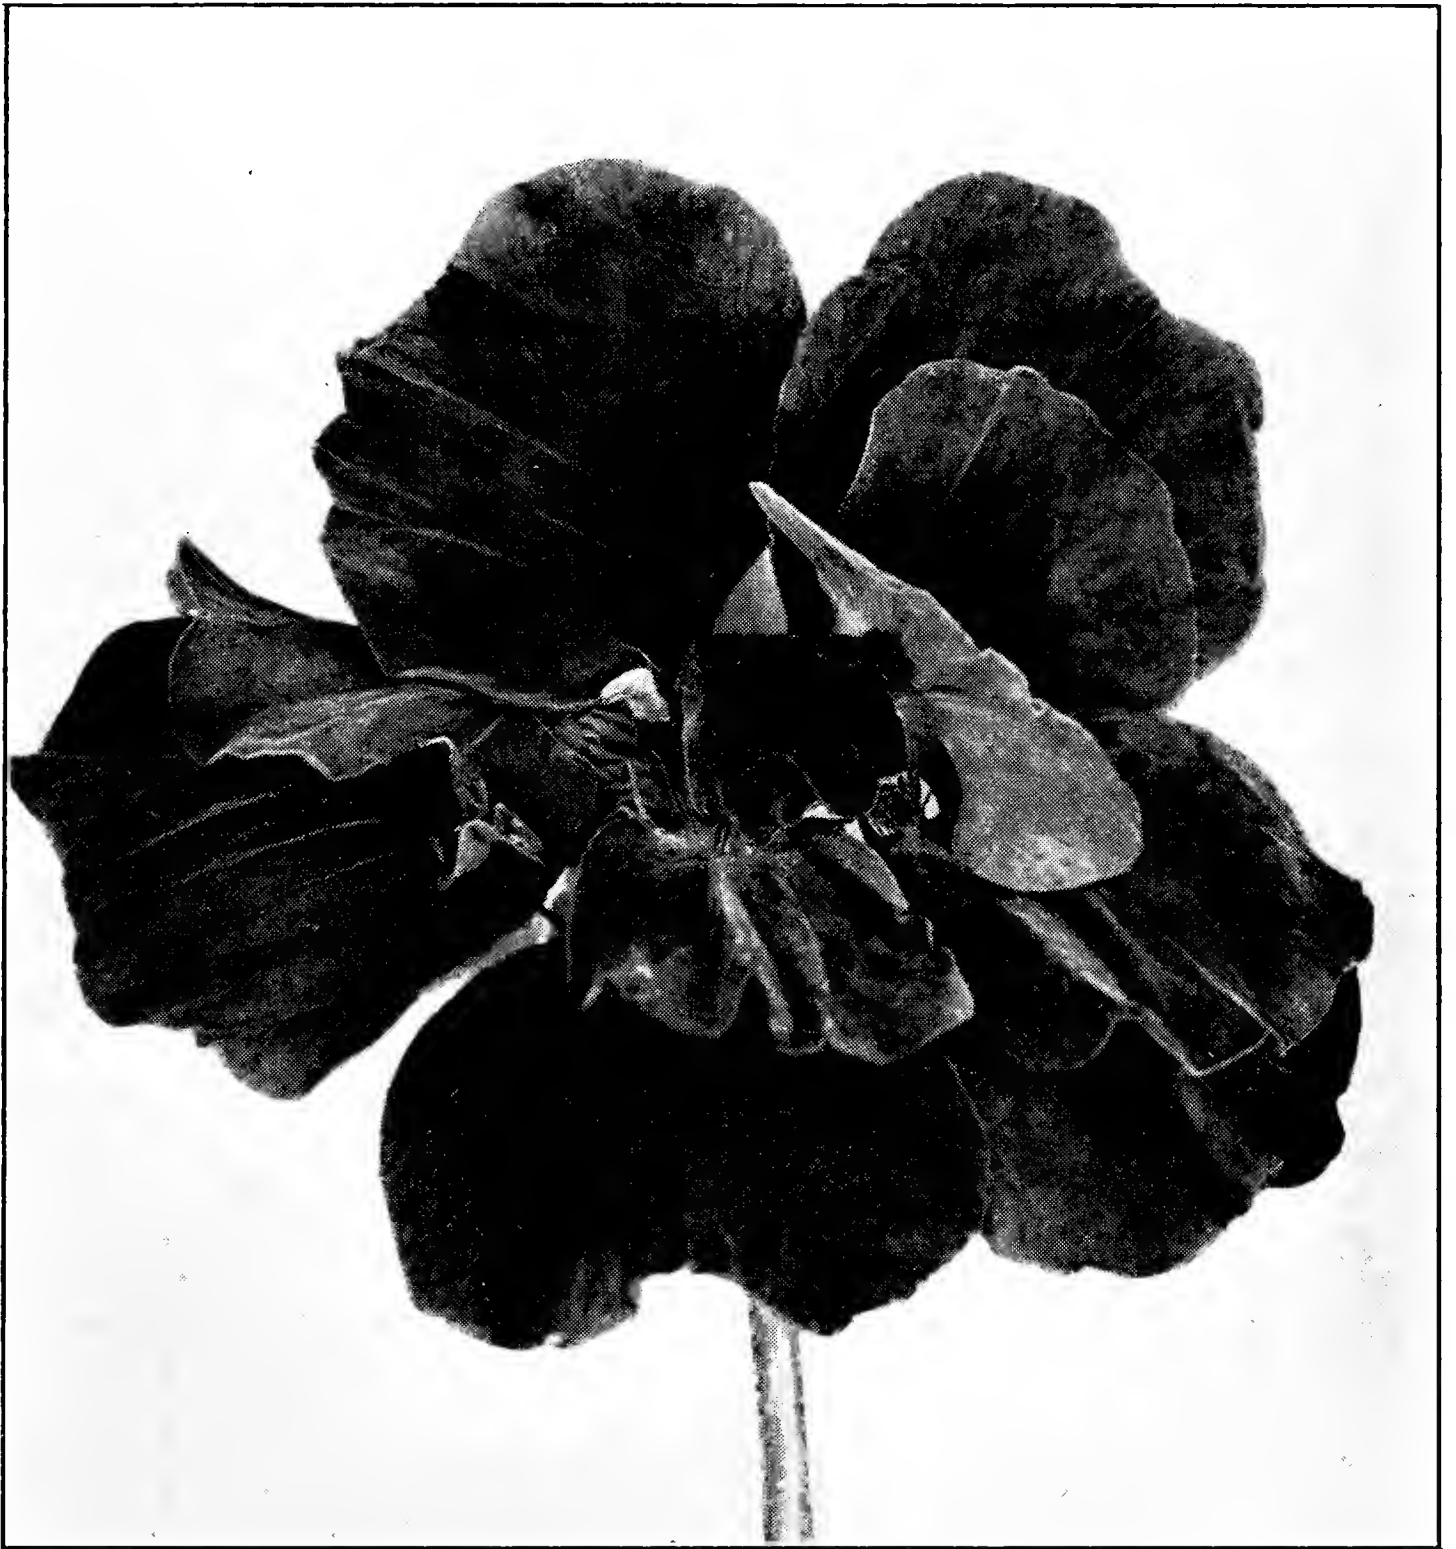

Supreme

Burpee origination and an outstanding fine, Double Sweet-Scented Nasturtium, the color of which is a marvelous shade of salmon-cerise. The gorgeous flowers are extra large, of good substance, and are borne profusely on long, strong stems well above the rich green foliage which further accentuates their beauty. The delightfully sweet fragrance of the blooms is quite pronounced. Plants are of semi-dwarf or Golden Gleam type and extremely profuse flowering. Wonderful color for cutting. A distinct contribution to the development of new colors in Double Nasturtiums.

\$1.50 per lb.; 100 lbs. or more @ \$1.35 per lb.

Scented Nasturtiums

Golden Gleam Type

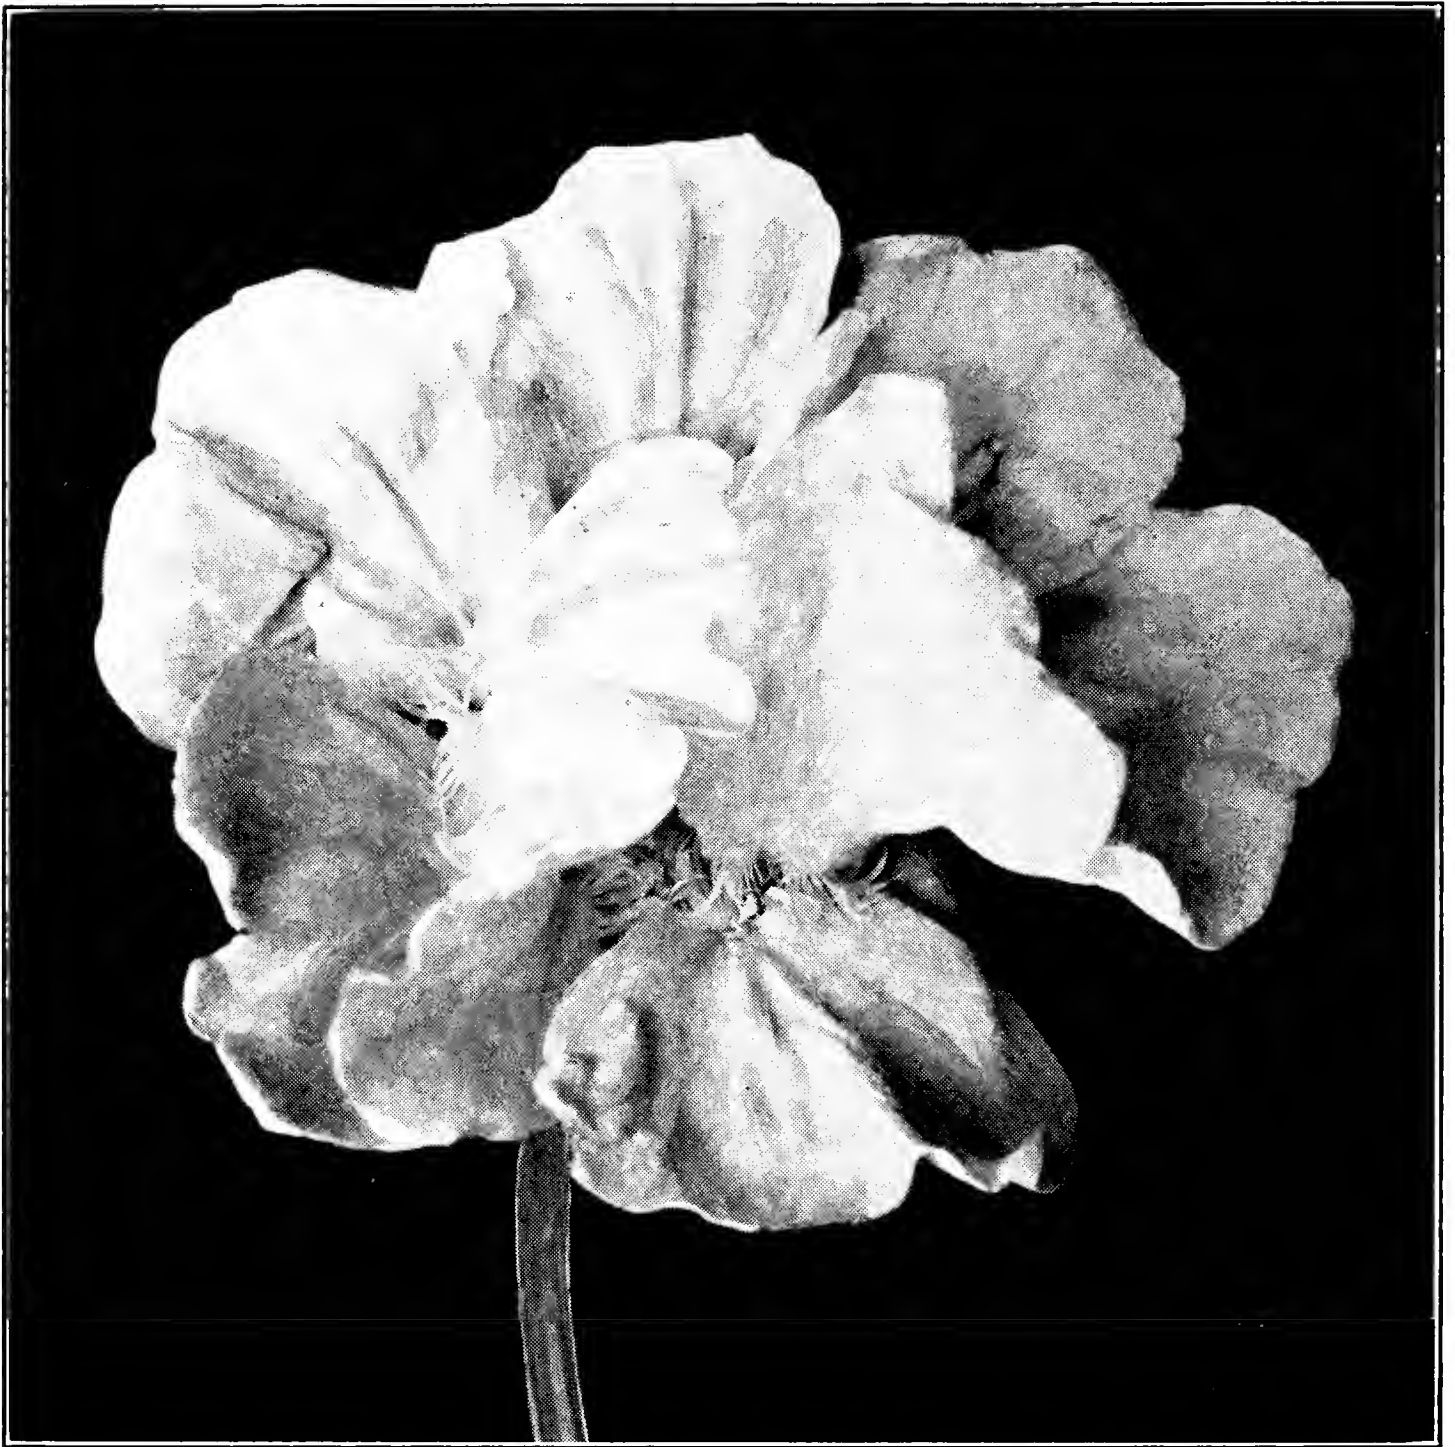

Burpee's Double Mahogany

Another Burpee origination which is probably the largest flowered of all Double Nasturtiums. As the name denotes, the flowers are dark mahogany-red but have such a velvety brilliancy that none of the dullness so often associated with dark colored flowers will be found in this variety. The immense flowers are borne with the greatest freedom on long, stiff stems well above the foliage of the semi-dwarf plants. The sweet scent is equal to that of any other variety. The flower world is enriched by such an unusual shade and it surely will find a welcome with all gardening enthusiasts.

\$3.00 per lb.; 100 lbs. or more @ \$2.80 per lb.

Giant Double Sweet

Semi-Dwarf on

Sun Gleam

Burpee origination and the most sweetly scented of all Double Nasturtiums. The color of the large flowers is a brilliant lemon-yellow—a soft, soothing shade that blends well with so many different colors. It is exceptionally floriferous, the exquisitely formed flowers being carried on long, stiff stems well above the foliage. Plants are of the same semi-dwarf growth as Golden Gleam. Sun Gleam has quickly gained public favor.

\$1.50 per lb.; 100 lbs. or more @ \$1.35 per lb.

Primrose Gleam

Of English origin, the raiser describing it as a counterpart of Fusilier, except in color, which is a bright lemon-yellow. Large, well doubled, sweet-scented flowers.

**\$1.50 per lb.; 100 lbs. or more
@ \$1.35 per lb.**

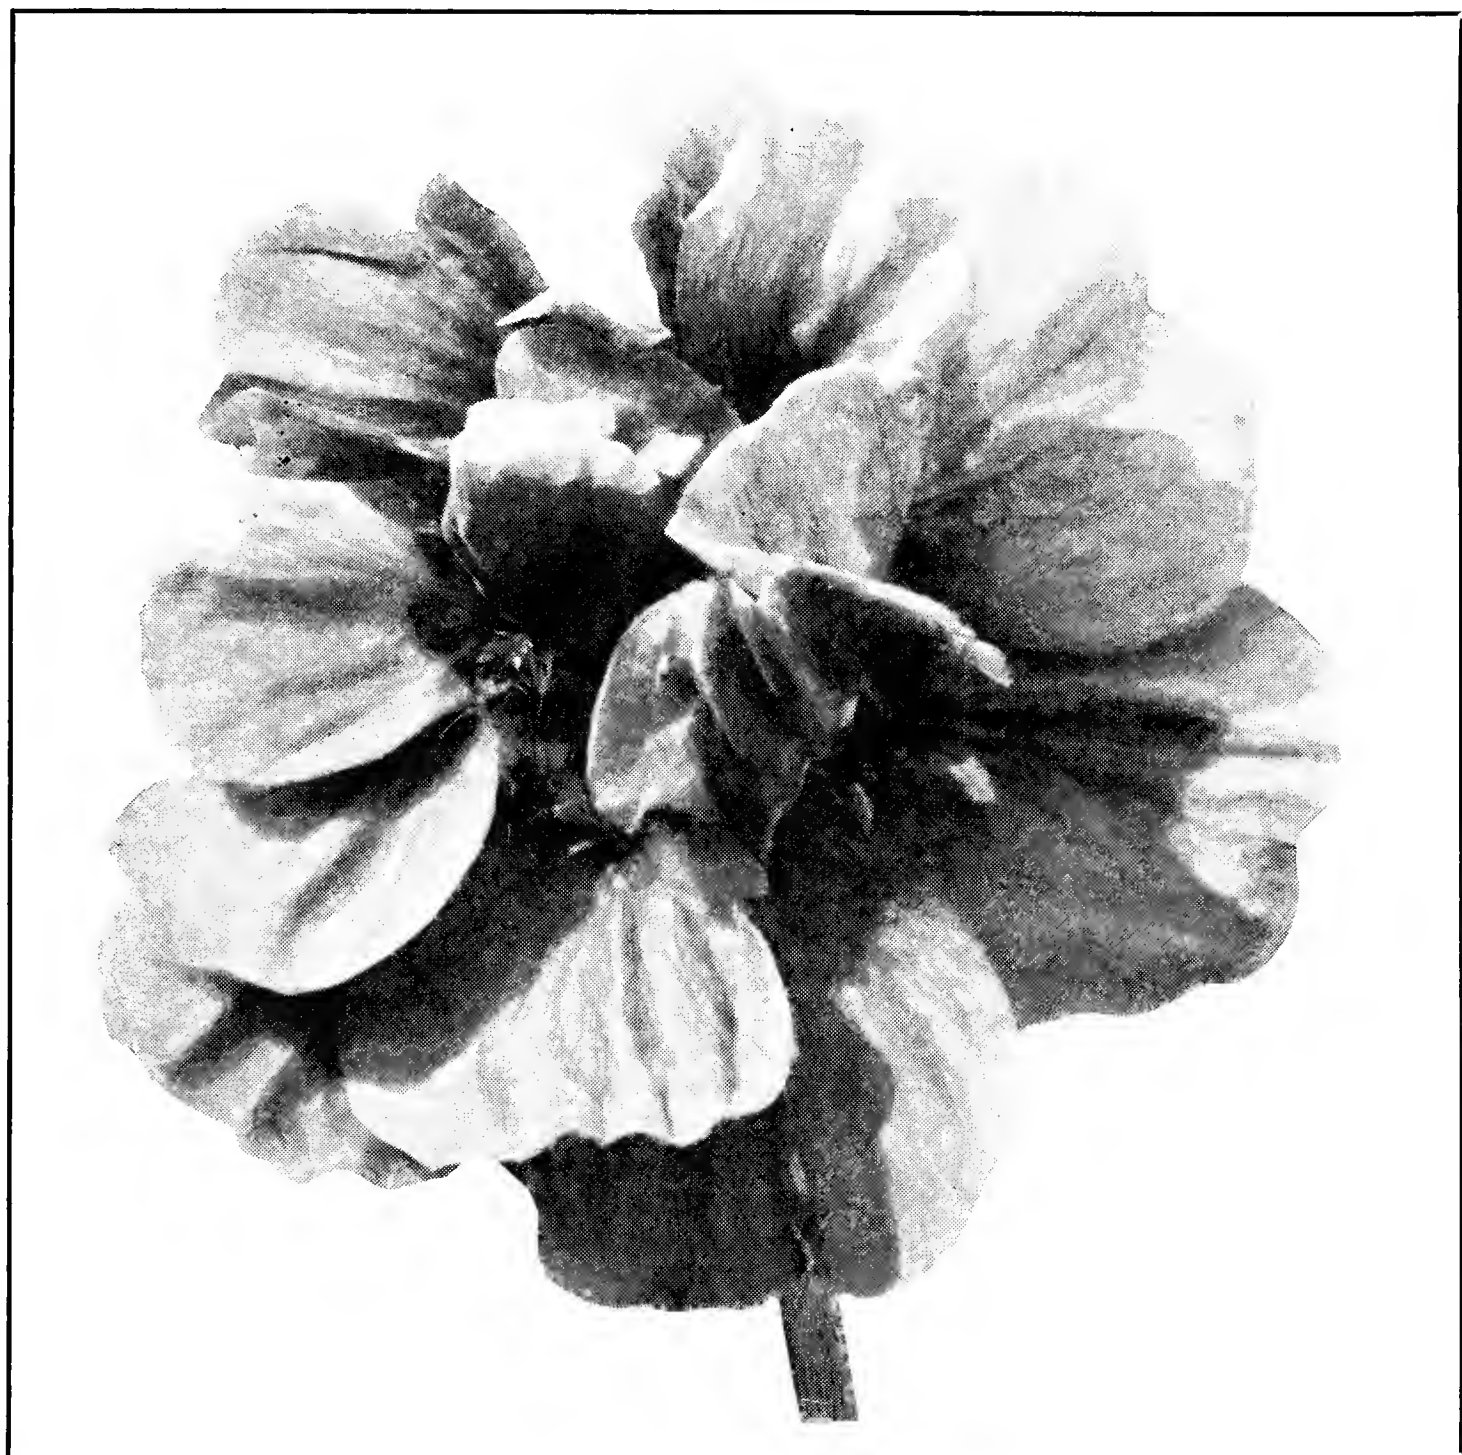

Fire Gleam

Described by the introducer as a new scarlet; the sweet-scented flowers being fully double and the plant growth like that of Golden Gleam but rather more compact.

**\$1.50 per lb.; 100 lbs. or more
@ \$1.35 per lb.**

Scented Nasturtiums

Gleam Type (continued)

Burpee's Double Scarlet

The first of the separate colors of Double Nasturtiums introduced by Burpee last year. Burpee's Double Scarlet is one of the most brilliant shades—a bright, fiery orange-scarlet. The flowers are borne so profusely as to almost cover the plants, which appear like a flaming cascade. Like all other varieties of Double Nasturtiums, Burpee's Double Scarlet is very fragrant, the flowers large and borne on long stems. Semi-dwarf.

45¢ per lb.; 100 lbs. or more @ 43¢ per lb.

Scarlet Gleam

Same type of plant growth as Golden Gleam; the flowers are large, long stemmed, dazzling orange-scarlet and richly sweet-scented. Showy in the garden or when cut.

39¢ per lb.; 100 lbs. or more
@ 38¢ per lb.

Scarlet Gleam

(Fusilier stock)

An English selection for which there is some demand. Vivid orange-scarlet flowers, double and sweet-scented. Semi-dwarf.

70¢ per lb.; 100 lbs. or more
@ 68¢ per lb.

Giant Double Semi-Dwarf

A typical plant of the Semi-Dwarf Nasturtiums offered on this and on pages 4, 5, 6, 7, and 9

Moonbeam

Originated by Burpee. Beautiful soft primrose, sweet-scented double flowers of large size and perfect form. The mass of flowers, which practically hides all the foliage, shows off the pure, delicate color to the best advantage. **\$1.50 per lb.; 100 lbs. or more @ \$1.35 per lb.**

Moon Gleam

Medium sized, sweet-scented, semi-double flowers of light golden cream.

**\$1.00 per lb.; 100 lbs. or more
@ 95¢ per lb.**

Orange Gleam

Deep, glowing golden orange with a deeper shading at the center. Large.

**\$1.50 per lb.; 100 lbs. or more
@ \$1.35 per lb.**

Salmon Gleam

Delicate golden salmon, semi-double flowers of medium size; sweet-scented.

**\$1.00 per lb.; 100 lbs. or more
@ 95¢ per lb.**

Golden Gleam

Few flowers ever introduced have been acclaimed so quickly and praised so highly. Beautiful, rich golden yellow flowers.

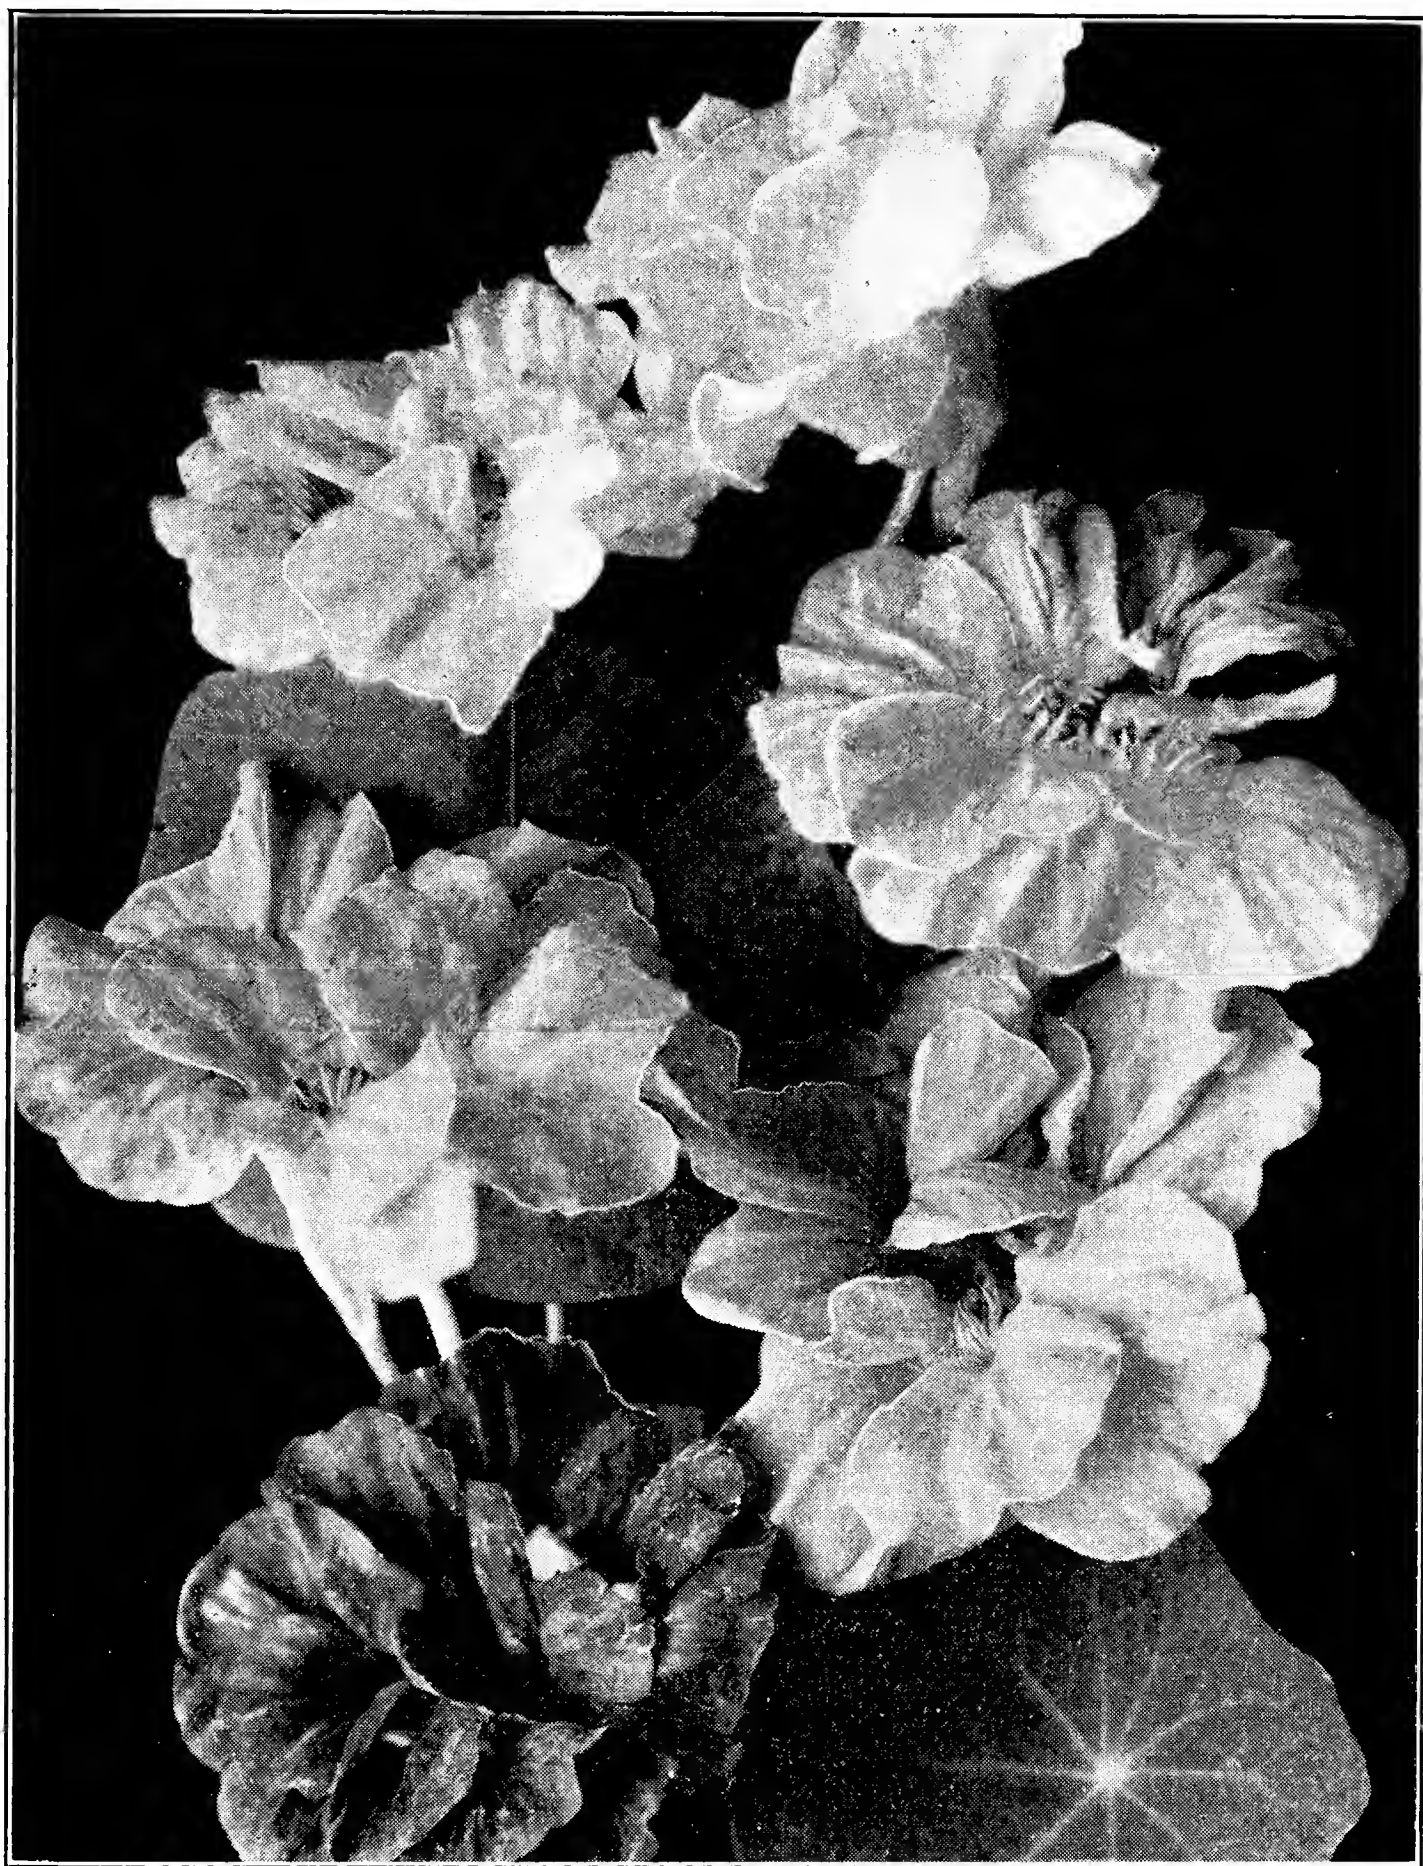

**34¢ per lb.; 100 lbs. or more
@ 33¢ per lb.**

Gleam Hybrids

Large, double and semi-double sweet-scented flowers of fine form in a wide range of colors, mostly selfs with some blotched and prettily variegated in lovely contrast to the green foliage.

**34¢ per lb.; 100 lbs. or more
@ 33¢ per lb.**

Nasturtiums (*continued*)

Burpee's Double Hybrids ***Sweet-Scented—All Colors Mixed***

Hybrids of Golden Gleam; first offered by Burpee. Wonderful array of colors (some never before seen in Nasturtiums) from pale primrose (almost white) through yellow, salmon-pink, salmon and gold, orange, cerise, rose, scarlet, crimson, bright red to deep maroon and mahogany. Some flowers are of solid colors, others beautifully marked or blotched with contrasting colors. **40¢ per lb.; 100 lbs. or more @ 38¢ per lb.**

Dwarf or Globe Double Nasturtiums are offered on next two pages

Dwarf Double Sweet ***Giant Double Flowers—***

Plant above shows typical growth of Burpee's Dwarf Giants and the named varieties on the next page

Burpee's Dwarf Giants ***All Colors Mixed***

A Burpee origination, having been developed on our Floradale Farms in California and offered for the first time last year. Here is another instance where Burpee was the only grower who had this wonderful novelty for their customers.

Plants of Burpee's Dwarf Giant Double Nasturtiums are of dwarf, compact, bush or globular form, about 1 ft. high. The gorgeous, giant sized double and semi-double blooms are produced with great freedom on very long stems and are lovely for cutting. The irregularly placed petals give the blooms an unusually artistic appearance. The dwarf, rounded plants are most attractive for beds, borders, rock gardens and pot culture.

Burpee's Dwarf Giant Mixture is unusually colorful; it contains many beautiful shades ranging from creamy white through yellow, rose, salmon, salmon-pink, orange, cerise, flaming scarlet, blood-red, crimson, and mahogany to deep maroon, as well as many interesting variegated and blotched color combinations.

95¢ per lb.; 100 lbs. or more @ 90¢ per lb.

Scented Nasturtiums

—Dwarf Globe Plants

Scarlet Globe

Perfect, compact plants, carrying well above the foliage giant double and semi-double, sweet-scented fiery scarlet flowers in the greatest profusion. We have counted more than a hundred blooms at one time on many plants in our fields.

Plants are uniform in growth, each being compact, globe-shaped, and about 1 ft. high. They retain their dwarf habit throughout the season.

The bushy, well-rounded plants are especially suited for borders, edgings, bedding, pots or rock gardens. A planting in full bloom is really a wonderful sight. In the garden or for cutting, no flower could be more desirable for a bright and vivid showing.

Scarlet Globe is a Burpee origination, offered for the first time this spring. Judging by present sales, we predict a big future for it.

**\$5.00 per lb.; 100 lbs. or more
@ \$4.75 per lb.**

Golden Globe

Exquisite, giant double and semi-double, pure golden yellow blooms of the same color and form as Golden Gleam. It differs only in its habit of growth; the plants are dwarf, globe-shaped and bushy and do not have any runners at any time during the season. Where a dwarf, compact growth is required, whether in borders, edgings, beds, pots or rock gardens, Golden Globe Nasturtium will be found most valuable. Flowers are long stemmed and deliciously scented.

**48¢ per lb.;
100 lbs. or more @ 46¢ lb.**

Gem Mixed

Double and semi-double, sweet-scented flowers in many colors; dwarf, globe-shaped plants. Grown from Bodger's stock.

**95¢ per lb.;
100 lbs. or more @ 90¢ lb.**

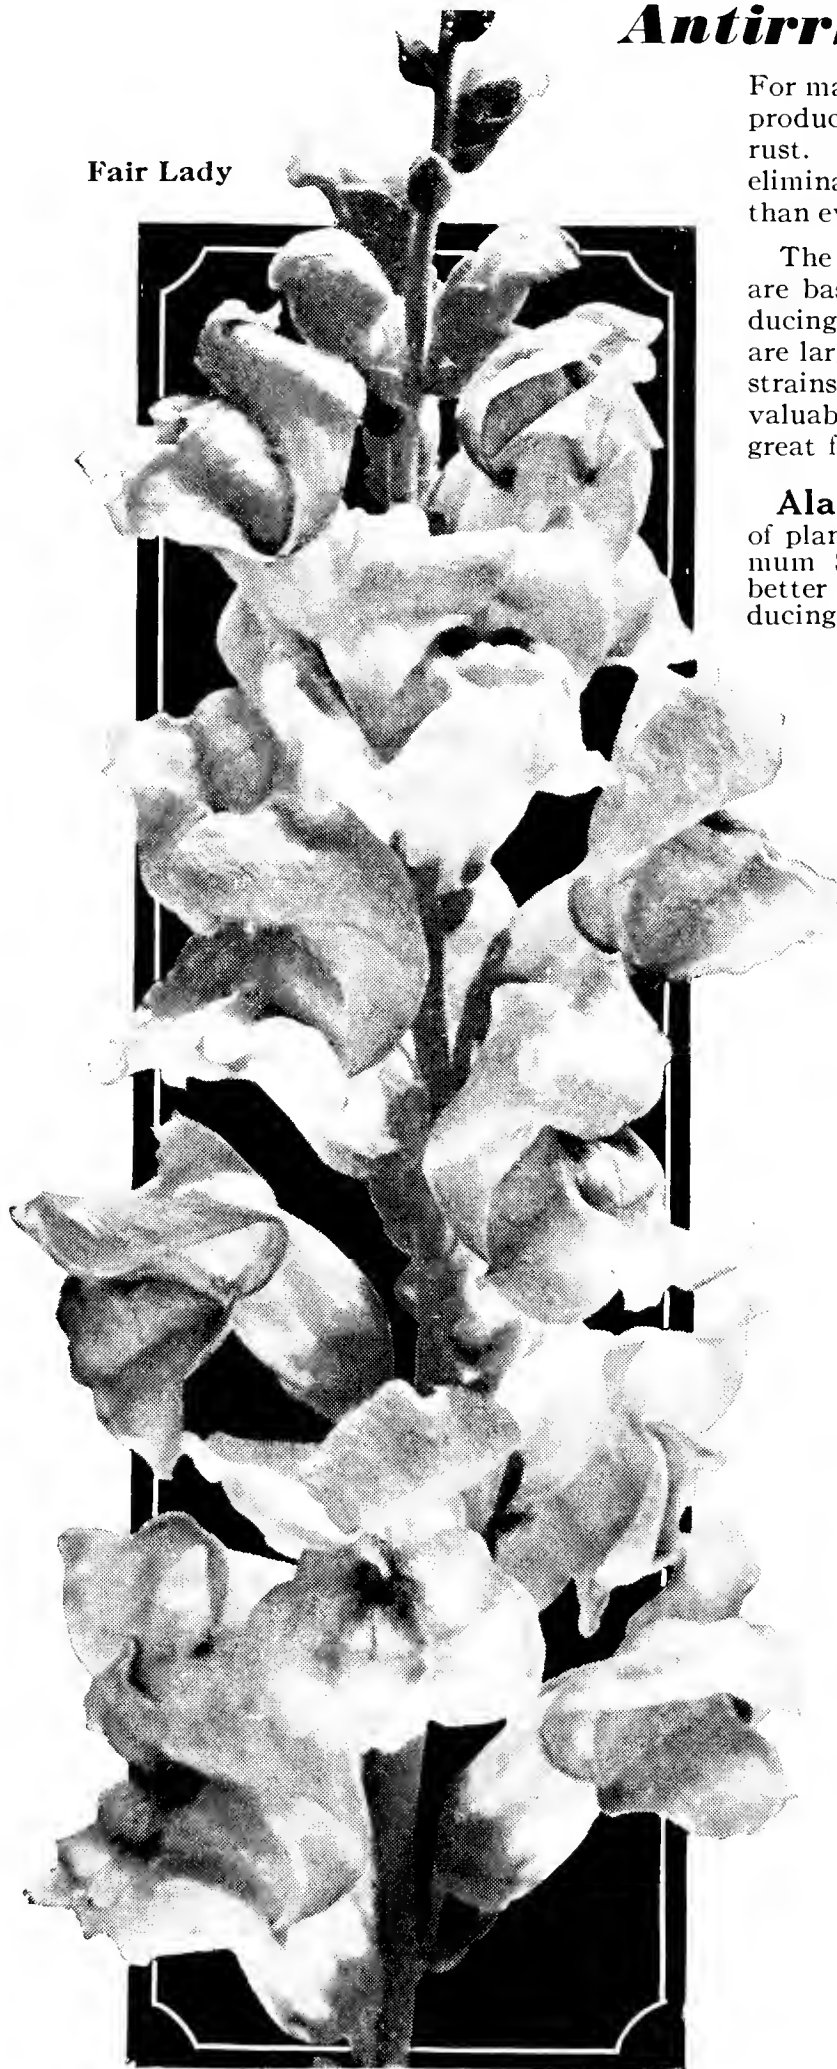

Scarlet Globe

Golden Globe

New Rust-Proof Giant Snapdragons

Antirrhinum maximum

Fair Lady

For many years plant-breeders have endeavored to produce a strain of Antirrhinums that would resist rust. At last they have succeeded, and with rust eliminated, Snapdragons have become more popular than ever.

The plants of the new Rust-Proof Snapdragons are base branching, very free flowering, each producing 8 to 18 long, graceful spikes. The flowers are larger and better spaced than the non-resistant strains, and the foliage is free from rust. This valuable new race fills a long-felt want; it has a great future.

Alaska. The creamy white flowers and height of plant are about the same as non-resistant maximum Snowflake, but the blooms are larger and better spaced, the plants freer flowering, each producing 12 to 14 spikes.

Apple Blossom. Rosy pink, white tube—the same color as non-resistant maximum Apple Blossom; huge flowers; 8 to 15 long stems to a plant.

Campfire. Pure luminous scarlet, free from orange or bluish tinges; yellow lip. Each plant produces 15 to 18 very tall spikes; flowers closely spaced.

Canary Bird. Of the same canary-yellow color as the non-resistant maximum Canary Bird; blooms spaced slightly closer. 12 to 14 stems per plant.

Copper Shades. Deep, rich, velvety copper-orange to the lightest coppery old-gold with yellow lips of varying sizes. Each plant has 12 to 16 long spikes.

Crimson. 8 to 10 long flower-spikes per plant. Flowers are very large, pure crimson overlaying a ground of orange which gives the effect of a fiery crimson.

Fair Lady. Pure pink emphasized by the small yellow spot at the lip and by the white tube. Very large flowers; 12 to 18 spikes to a plant.

Loveliness. 12 to 16 long, strong spikes of pure, soft rose-pink, huge flowers are produced to a plant. Sure to be a great favorite.

Pink Shades. Pure shades of pink, from deep to light, all free from any purplish or bluish tinges. 14 to 18 spikes to a plant.

Red Cross. Deep, rich crimson with contrasting, glistening white tubes. 15 to 18 flower-spikes to a plant. Outstanding, especially for garden use.

Any of the above: **Oz. 75¢; lb. \$9.00**

Rust-Proof Maximum Varieties Mixed. All the above colors as well as others of which we do not have enough stock to list separately. **Oz. 50¢; lb. \$6.00.**

Arctotis Giant Hybrids

Amazing Range of Unusual Colors

Some of our most striking and charming flowers have come from South Africa. The three different and distinct classes of Arctotis offered on this page came from that country, but by scientific hybridization and continuous, drastic re-selection we now have strains that surpass the original ones.

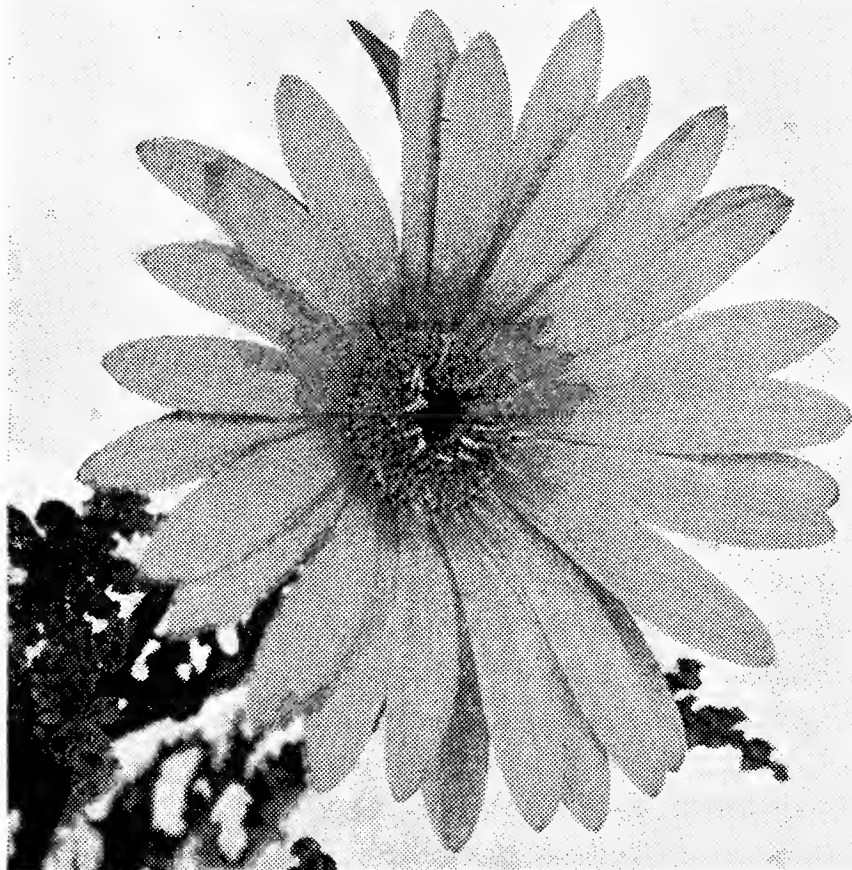

The flowers of the Giant Hybrids grow 2½ to 3 in. across, with long, narrow petals that have a striking resemblance to Gerberas. The color range is exceedingly varied and contains unusual shades seldom seen in any flowers—deep browns through bronze, russet, terra-cotta to light apricot; all shades and tones of yellow to primrose and down to white; odd shades of red, brick and near scarlet; pinks, rose and even mauvy tones. Plants grow 10 to 12 in. tall, quite vigorous, showy and effective. They are very free flowering and carry their handsome blooms erect on strong, wiry stems, well above the foliage. Arctotis Giant Hybrids is one of the finest flowers we have ever introduced. **Oz. \$2.10; lb. \$25.00.**

**Arctotis
Giant Hybrids**

Arctotis Squarrosa

Large, perfectly formed flowers measuring 3½ to 4 in. across, of bright golden yellow, which stand out in lovely contrast to the delicate, fern-like foliage of the robust plants. The attractiveness of the flowers is further increased in that the central disc is small in comparison to the length of the petals. Plants grow 10 to 12 in. tall and their habit is ideally suited to edgings, borders or bedding. **Oz. \$10.00.**

Arctotis Squarrosa

Arctotis Scapigera

A colorful, dwarf Arctotis growing 6 to 8 in. tall and freely producing large Daisy-like flowers 2½ to 3 in. across. The colors include orange, terra-cotta, yellow, cream, salmon, carmine and others of exceptional brightness; much admired by all visitors to our farms. Mixed colors. **Oz. \$2.10; lb. \$25.00.**

Eschscholtzia

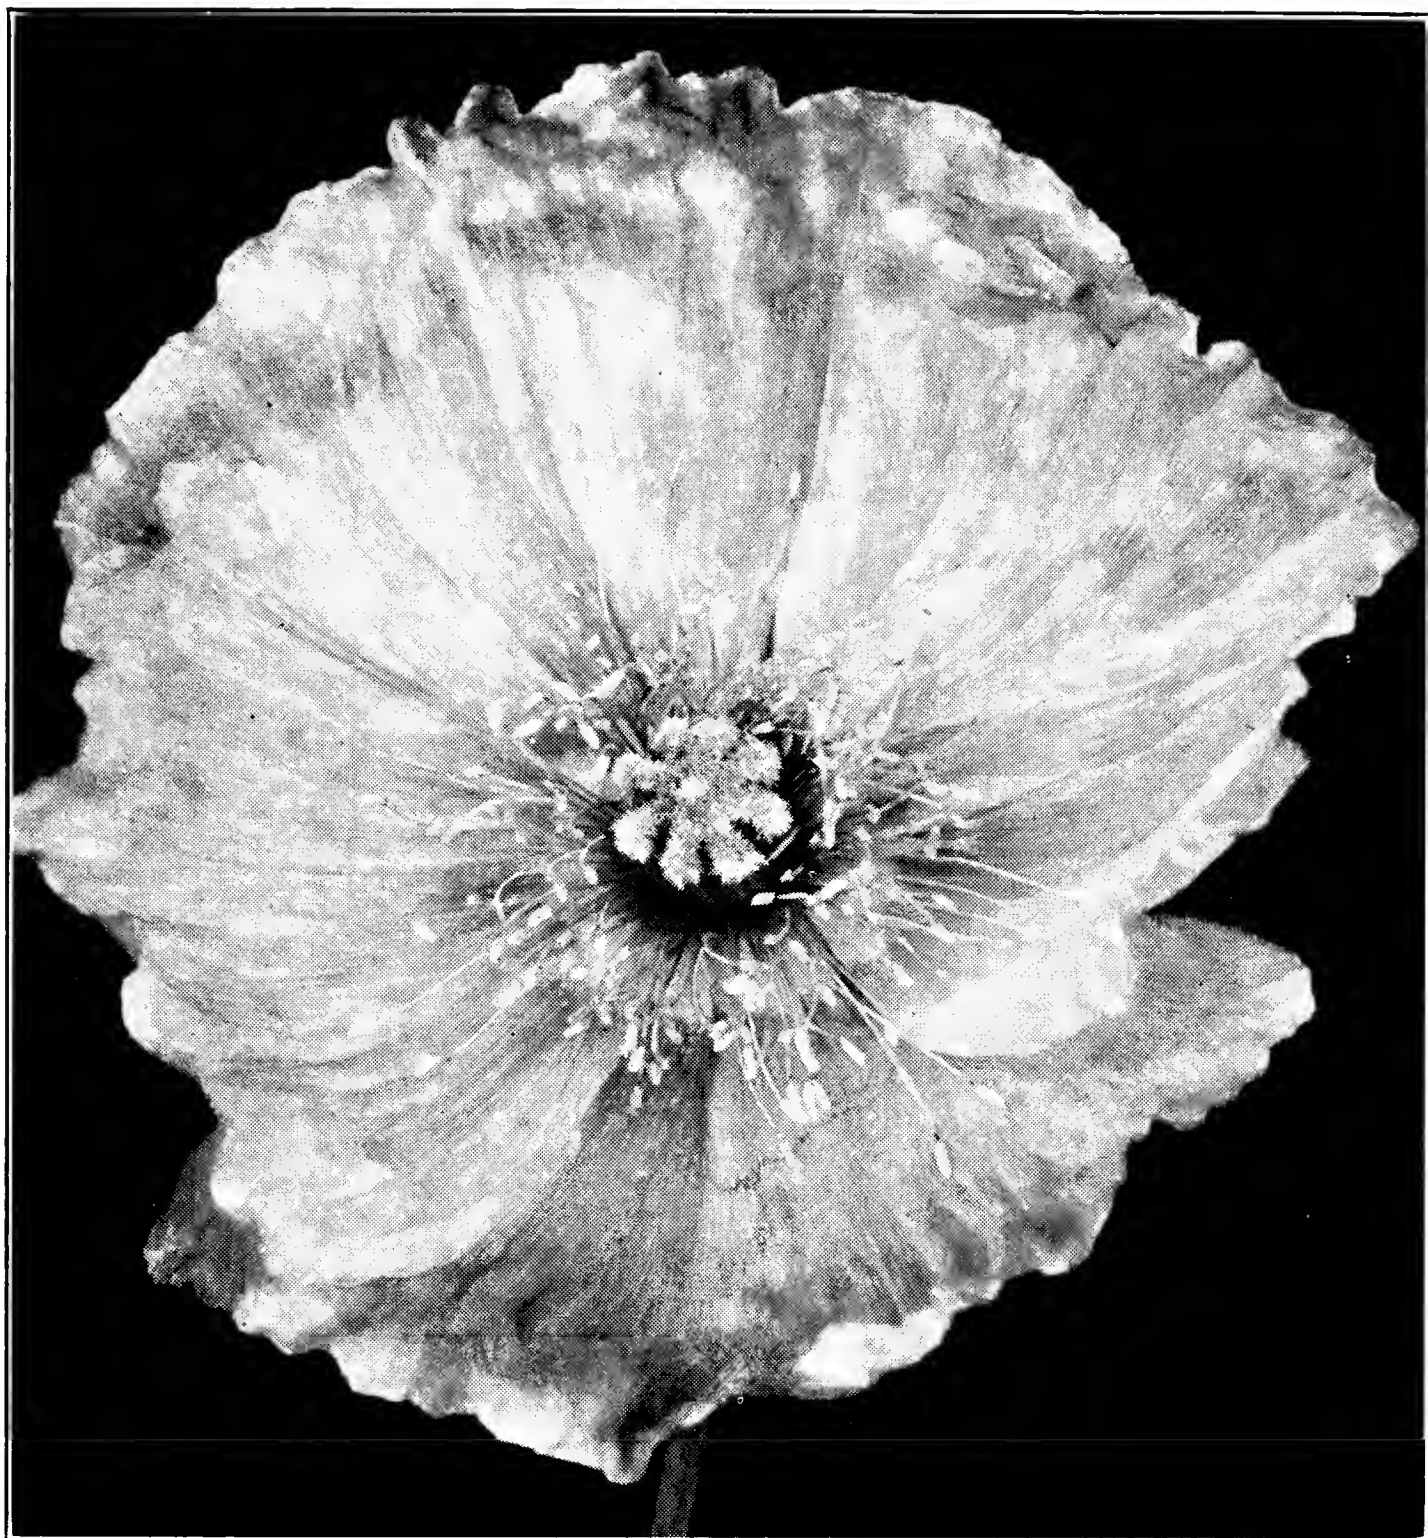

Erecta Golden Rod

This new Eschscholtzia is the result of several years' hybridization and selection to obtain a compact, erect growing, large-flowered variety which carried its blooms well above the foliage. Golden Rod has all these characteristics.

The flowers are very large, nearly 4 in. across, and perfect in form. The bright golden orange color is carried evenly over the entire flower, whose beauty is enhanced by a brilliant metallic sheen.

The compact plants are of uniformly erect habit, about 18 in. tall, with attractive bluish green foliage above which the showy flowers are freely produced over a long period. It begins to bloom early in the season, and where summers are not too hot will continue to flower until frost.

Burpee's erecta Golden Rod fills a long-felt want for a dwarf, erect Eschscholtzia for edgings, borders and rock gardens. Golden Rod is one of the finest of all California Poppies. **Oz. 50¢; lb. \$6.00.**

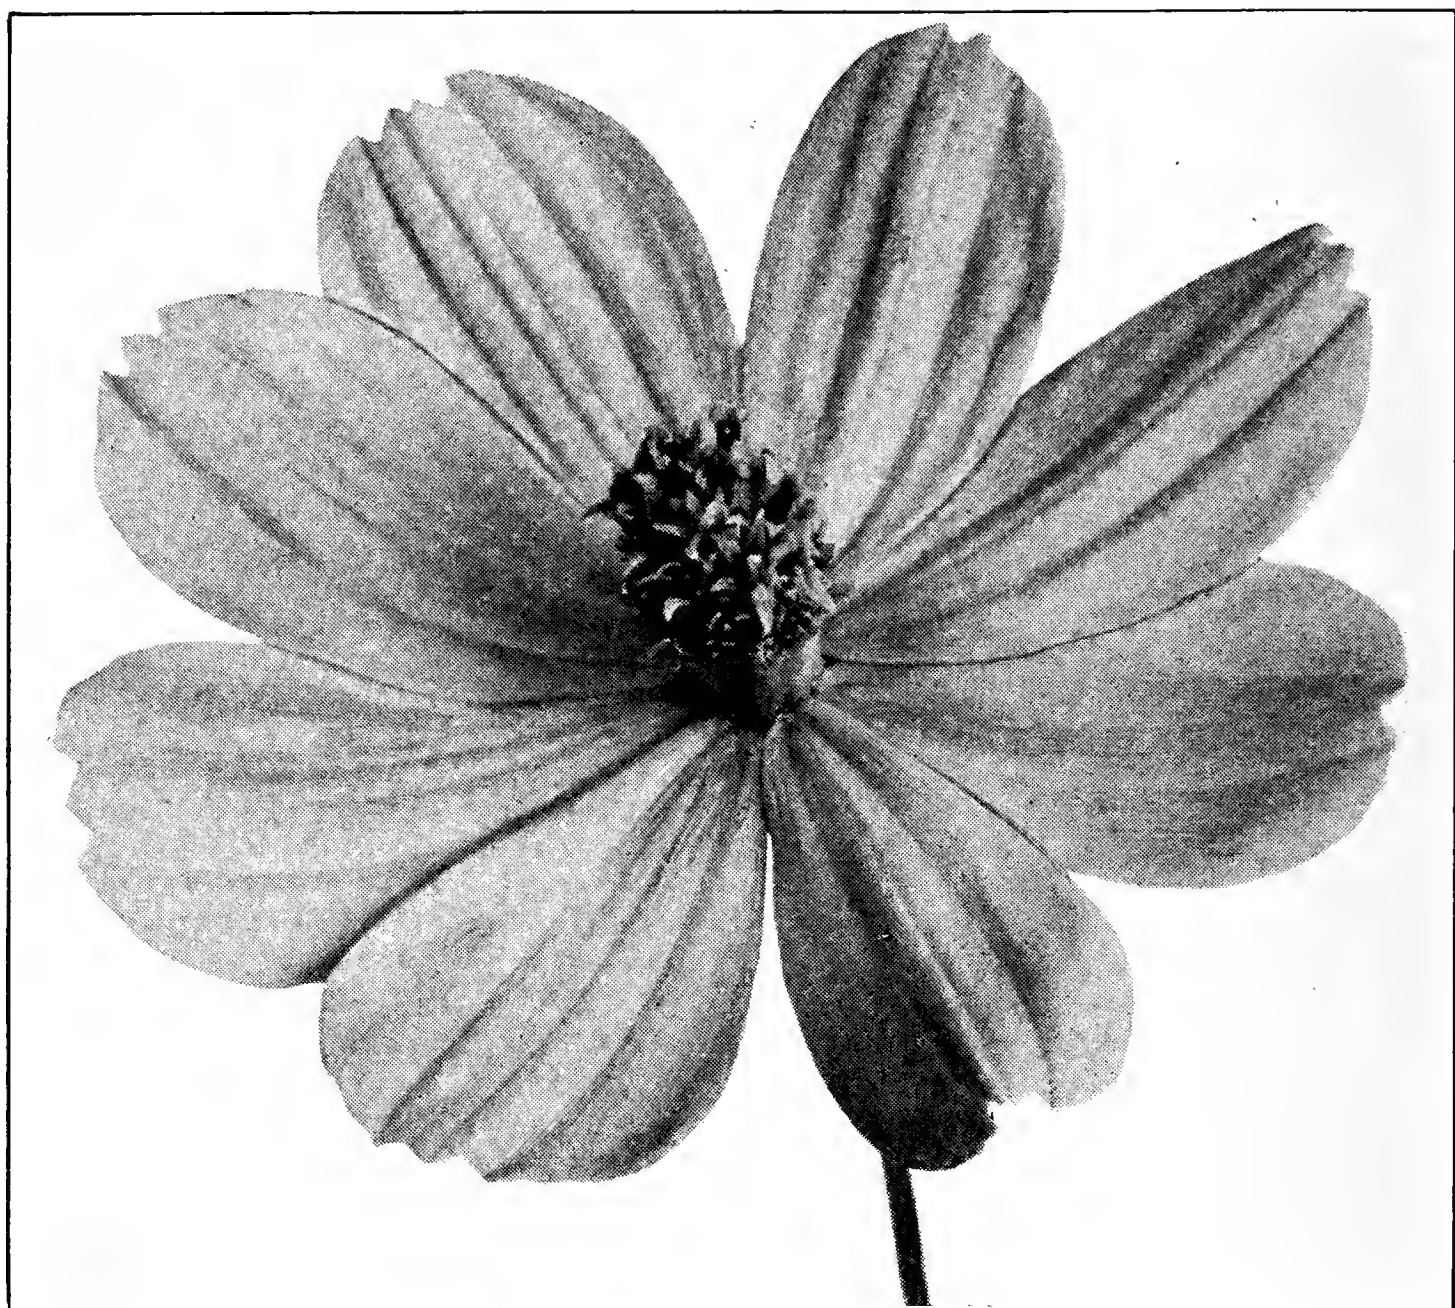

Papaver nudicaule **Yellow Wonder**

Burpee's Yellow Wonder is the longest stemmed, largest flowered clear yellow Iceland Poppy that we have ever seen.

The showy flowers grow 4 in. and more across, are bright buttercup-yellow with lighter centers—the clear yellow color made especially vivid by the silky sheen of the petals.

The plants are vigorous, the leaves densely set with fine hairs. There are two features which make Yellow Wonder so outstanding: the color is charming and distinct but the most attractive feature is the long stems which grow 18 in. to well over 2 ft. tall in ordinary soil and much more in rich soil and under ideal climatic conditions. Very free flowering, each plant producing 20 to 30 flowers on strong, wiry stems.

All-America winner for 1936, but withdrawn from sale on account of a very limited supply of seed. Large plantings have been made and we hope we will have sufficient seed for everybody. **Oz. \$5.00; lb. \$60.00.**

Cosmos

Sensation Mixed

Early Blooming—Mammoth Flowered

A welcome addition to a most popular class. Not only are the blooms larger than any other Cosmos, but they may be had in about ten weeks after the seed is sown. Flowers grow 4 to 6 in. across and come in deep and light pink as well as white. The bushy plants grow 4 to 6 ft. tall and are very free flowering. For exhibition purposes, space plants 3 to 4 ft. apart and disbud. We offer a special re-selected stock. Cosmos Sensation is a novelty which warrants listing in every catalog. **Oz. 75¢; lb. \$9.00.**

Cosmos

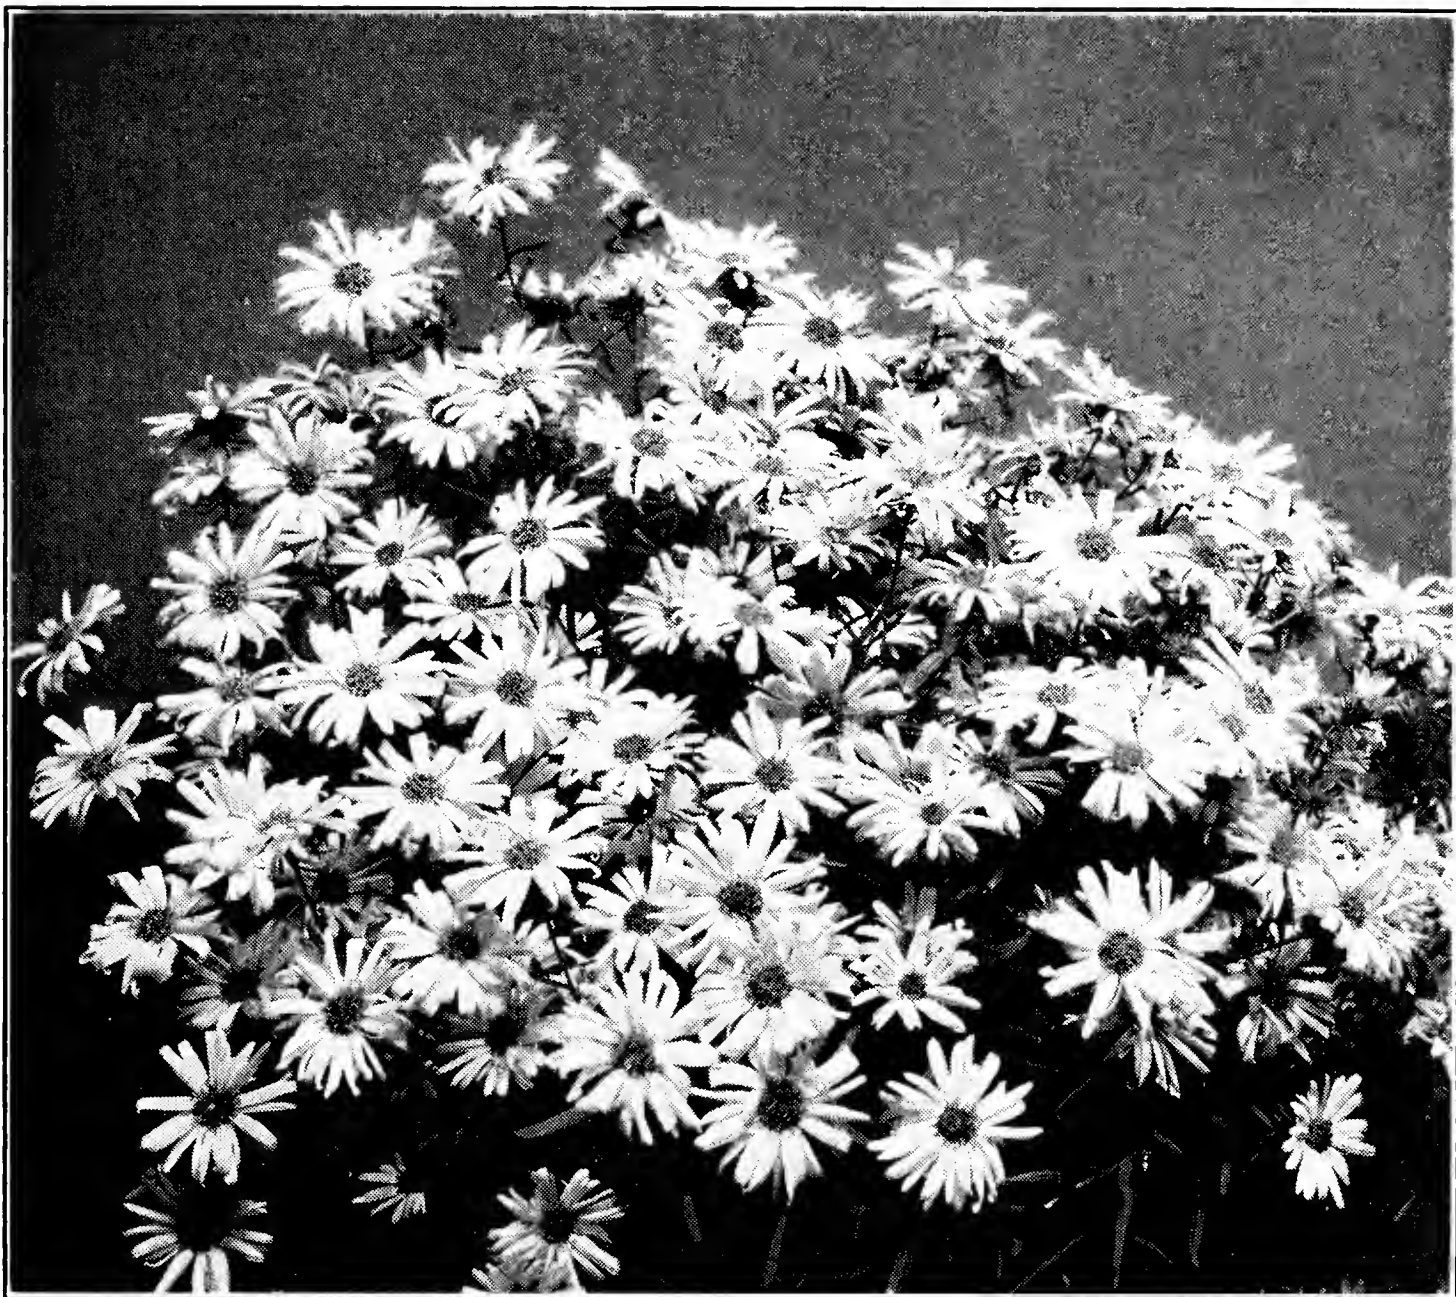

Orange Flare

Early Flowering Klondyke. Compact, bushy plants about 3 ft. tall, with a sparse growth of attractive, fern-like foliage. Its most remarkable feature is its early blooming; it will flower within 90 days from seed. The long-stemmed flowers are bright, vivid orange. **Oz. 25¢; lb. \$3.00.**

Cosmos

Burpee's Golden

A worthwhile companion to Orange Flare. The flowers are of the same lovely, golden orange color but the plants grow 5 to 6 ft. tall, have heavier foliage, and require about 4½ months to bloom. Wonderful variety, especially where seasons are long. Very robust grower. **Oz. 50¢; lb. \$6.00.**

Heteropappus Blue Daisy

Late Summer and Autumn Blooming

One of the finest plants for late summer and autumn flowering. Plants grow 2 to 2½ ft. tall and are literally covered with Marguerite-like flowers, 1½ in. across, which greatly resemble hardy fall Asters. The color is a most desirable, silvery lavender-blue in striking contrast to the bright yellow central disc. Lasts well when cut.

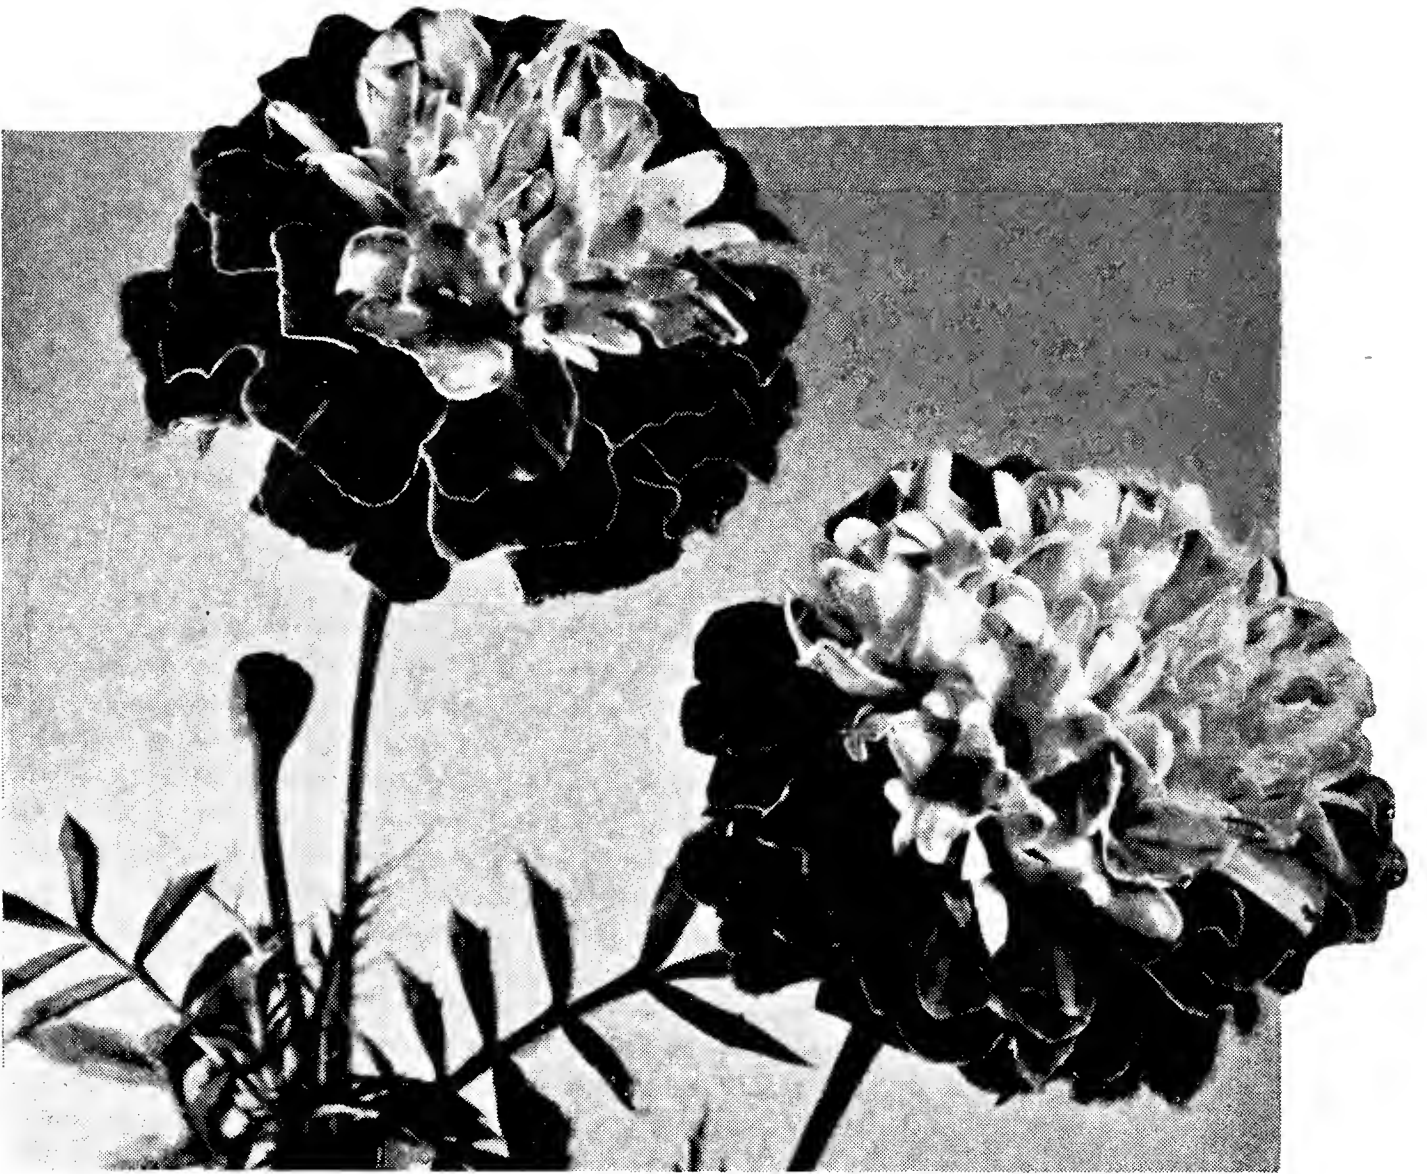

Plants are symmetrical in growth; leaves are produced in rosettes from which arise the much-branched, wiry stems. **Oz. \$1.25; lb. \$15.00.**

Godetia Dwarf Show Mixture

Large flowers, 2½ to 3 in. across, in many shades of rose, pink, cerise, carmine, scarlet, lavender, cream and also white, as well as various combinations of these shades, stand well above the foliage of the attractive, dwarf, bushy plants. Very profuse blooming. **Oz. 25¢; lb. \$3.00.**

Ornithogalum Thyrsoides

This is the famous South African "Chincherichee." 30 to 40 star-like white flowers, about 1 in. across, are clustered in a triangular-shaped head on stems 1½ to 2 ft. tall. After being cut, the flowers will last for weeks. As unusual as it is interesting. **Oz. \$1.00; lb. \$12.00.**

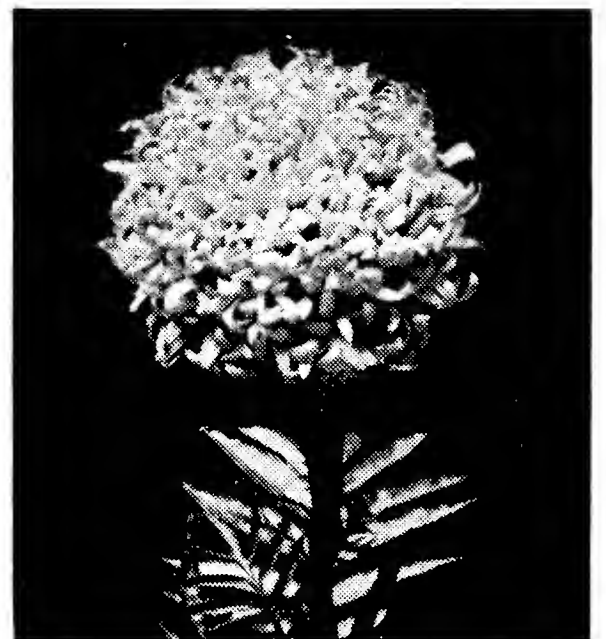

Marigold Harmony (Farbenklang)

One of the finest Dwarf French Marigolds ever introduced. It differs entirely from all other varieties of this class in its habit of growth, shape and colorings of its flowers.

The centers of the flowers are composed of fluted, deeply cut golden orange disc petals. Several rows of reddish brown outer petals surround the Scabiosa-like center in collar fashion—a most striking and effective combination of colors. Plants grow about 1 ft. tall, bloom early, continuously and very profusely. Not only one of the best Marigolds but also one of the finest of all new flowers. **Oz. 30¢; lb. \$3.75.**

Marigold Dixie Sunshine

Clear, bright golden yellow flowers, 2 to 2½ in. across, made up of small, five-pointed florets that are interlaced in such a manner as to give them the appearance of small Pompon Chrysanthemums. Plants are of upright, uniform growth, about 3 ft. tall, with heavy, deep green foliage. Very late flowering. **Oz. 85¢; lb. \$10.00.**

Dixie Sunshine

Tripteris Hyoserioides

New, distinct and attractive. Plants grow 2 to 2½ ft. tall; the flower stems are 12 to 14 in. long, topped with attractive clusters of dainty, Daisy-like blooms. Individual flowers grow 1½ to 2 in. across and are light cadmium-yellow shading slightly deeper toward the center. The small disc is of the same cadmium-yellow at first, but as the flowers age, the color changes to very dark brown. **Oz. \$2.50; lb. \$30.00.**

Scabiosa Giant Hybrids

Remarkable for the size of the flowers, the length and sturdiness of the stems and the robustness of the plants. The flowers are borne freely in a great variety of rich and unusual colors—light and dark shades of rose, cerise, flesh, scarlet, lavender, blue, violet, purple-black and white. 3 to 3½ ft. tall. **Oz. 40¢; lb. \$4.50.**

Ursinia Pulchra

Very dainty and attractive plants, about 6 in. tall, with delicately cut foliage above which the lovely, deep orange, Daisy-like flowers are freely borne throughout the summer. The compact, dwarf, neat habit of the plants makes them most desirable for edgings. Prefers a sunny location. **Oz. \$1.50; lb. \$18.00.**

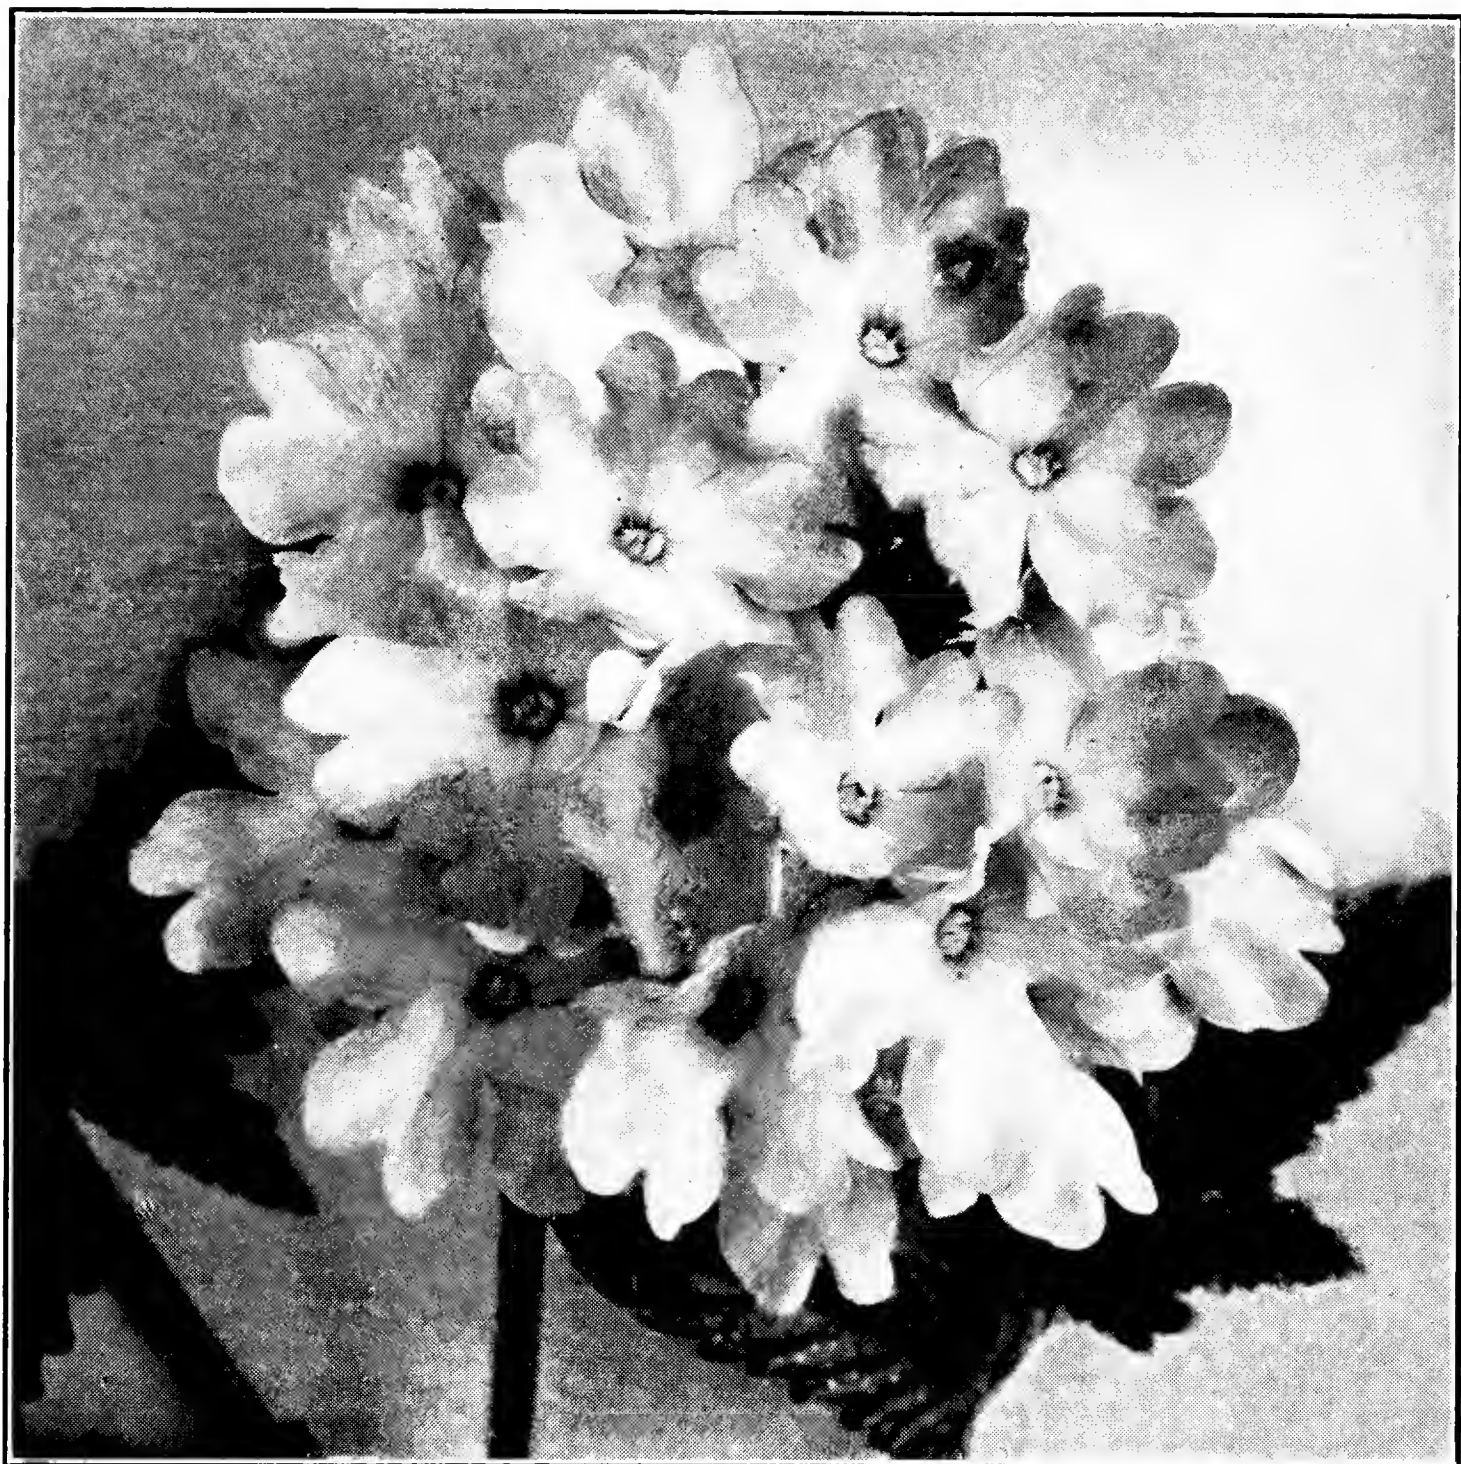

Venidium Fastuosum Hybrids

Of the many flowers which South Africa has contributed to our gardens, *Venidium fastuosum* stands out as the showiest. We realized that for many gardens it would be too gaudy and customers would welcome such a lovely flower if it might be had in softer, more refined colors. Our plant breeders got busy and last year we offered a wonderful new strain of Hybrids, which has been praised very highly.

Many colors which were entirely new in *Venidiums* are to be had in these Hybrids—creamy white, lemon-yellow, butter-yellow, buff, light orange, and also white; each petal is attractively blotched at its base, all in lovely contrast to the purple-blue or brown centers.

Plants grow 2 to 3 ft. tall and produce numerous flower stems each bearing a large, Daisy-like flower, 3 to 4 in. across. The constitution of the plants is strong and a quite important attribute is that the seed germinates very freely. A most striking novelty. **Oz. \$1.65; lb. \$20.00.**

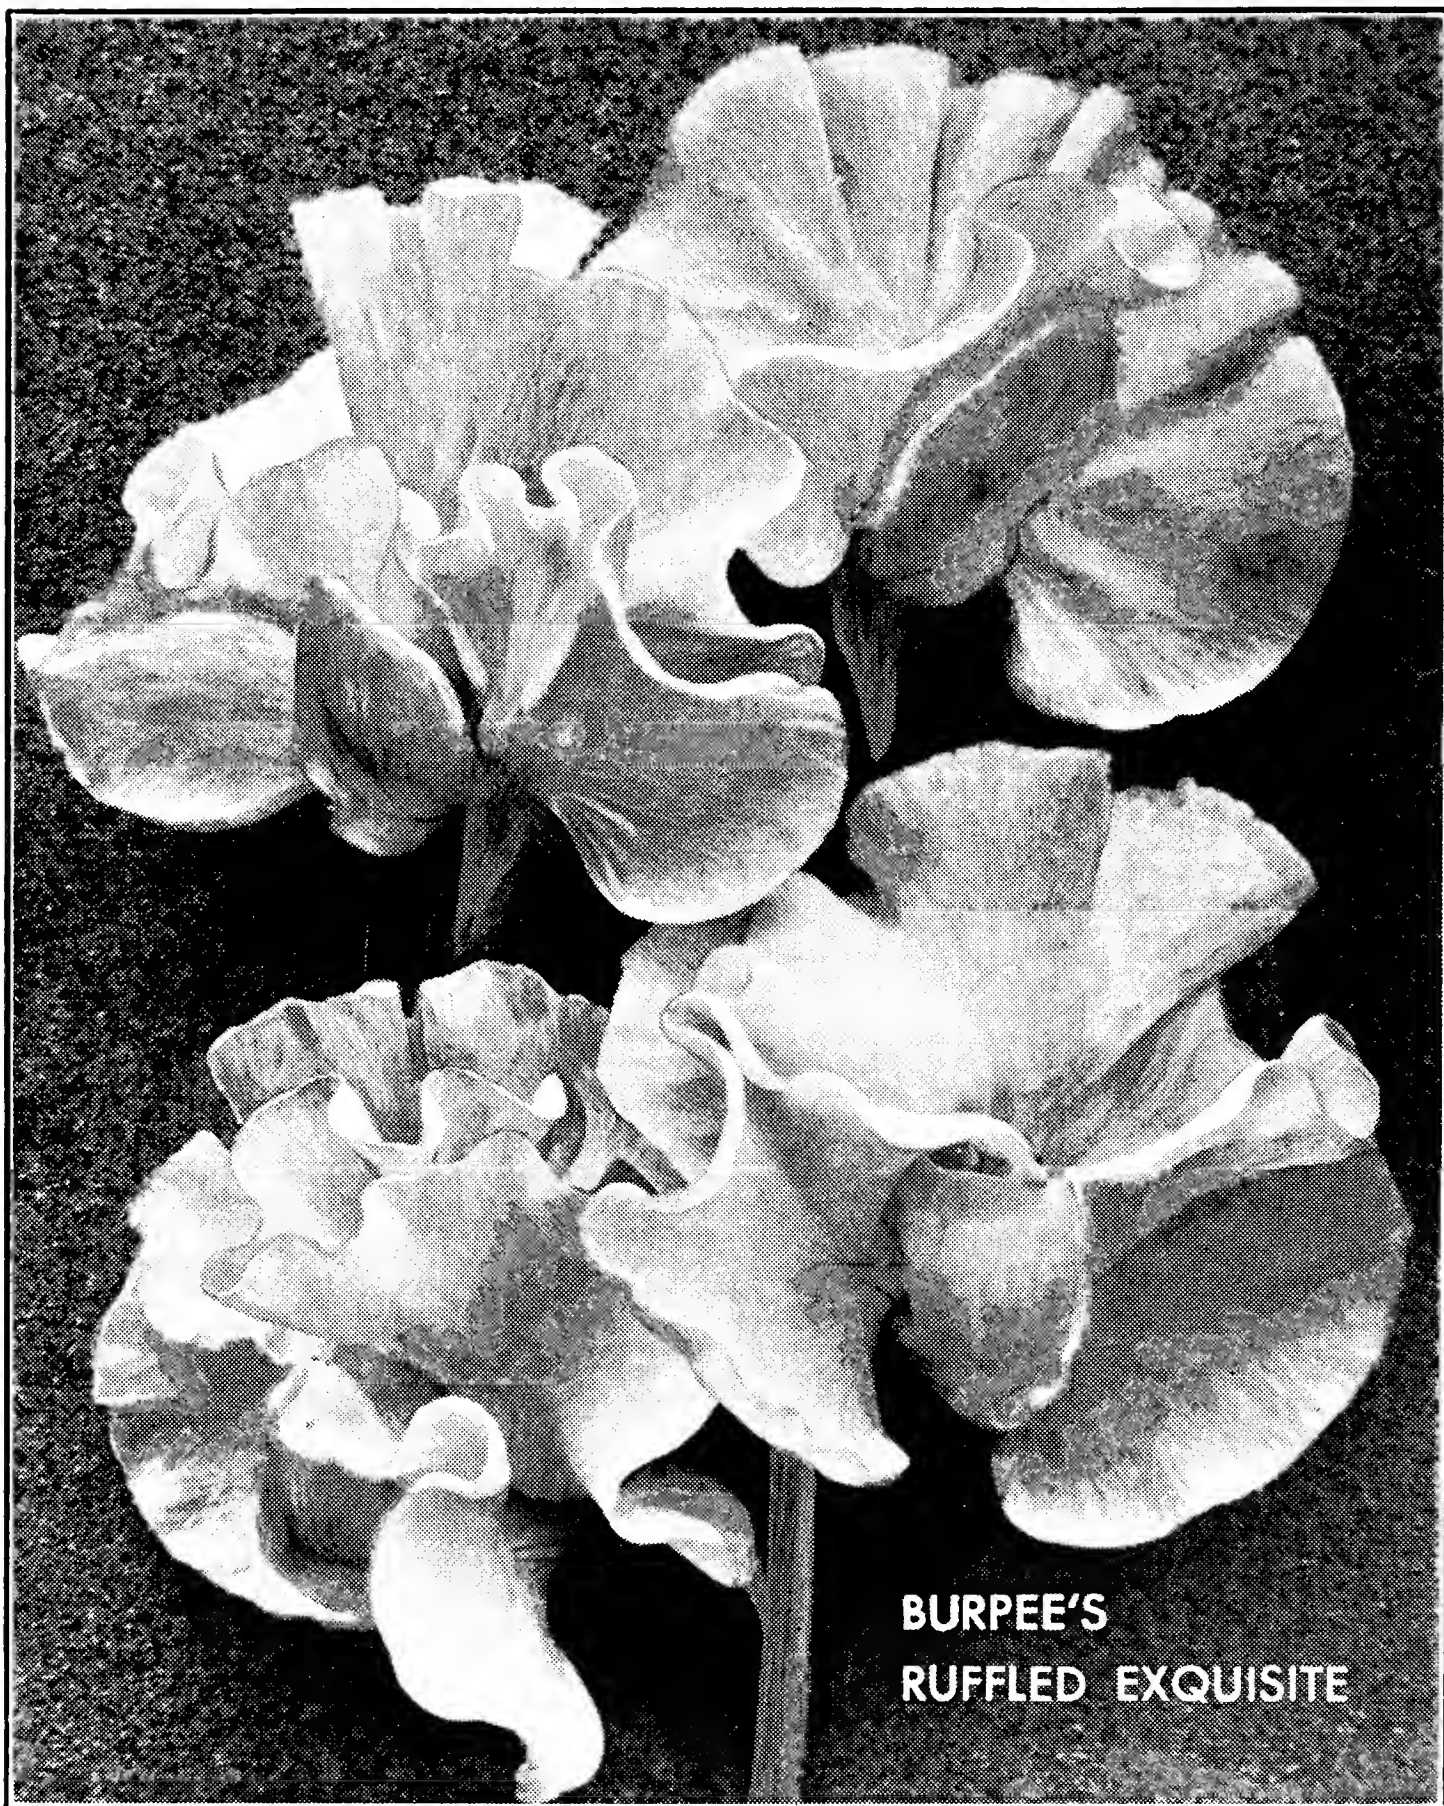

Verbena Floradale Beauty

A great improvement on Beauty of Oxford Hybrids, which are so good that it would seem hardly possible to excel them, but Floradale Beauty does surpass them in size of florets and flower-heads. As is commonly known, it is usually difficult to get good stands on Beauty of Oxford Hybrids unless seed is started under glass, whereas seeds of Floradale Beauty, sown directly in the open, have always given us perfect stands.

Floradale Beauty Verbena is a giant hybrid, the flowers varying from bright rose-pink to deep rose-red of exceptional brightness. Individual florets are of perfect form, fully rounded, and average $1\frac{1}{4}$ in. across; they make up into heads or trusses which measure 4 to 5 in. across. Plants are very free flowering and grow about $2\frac{1}{2}$ ft. across. Visitors to our farms have always admired our plantings. We can recommend Floradale Beauty as a worthwhile novelty, adapted for any purpose to which a Verbena may be put. **Oz. \$2.10; lb. \$25.00.**

Burpee's Giant Ruffled

The Newest and Most

Giant Ruffled Sweet Peas are Burpee origination, having been developed on the Burpee Floradale Farms in California after years of most careful breeding and selection. The main characteristic of this new type is the duplexness and extra frilliness of the flowers. This imparts a double appearance to the large wavy flowers, the frilliness extending even to the edges of the wings. Lovely four-flowered sprays.

This type has been proclaimed by Sweet Pea experts and flower enthusiasts as the greatest advancement made in Sweet Peas for many years. Seedsmen will do well to anticipate their customers' wants by offering the new Ruffled type in their catalogs.

Spencer Sweet Peas

Beautiful of All

Four NEW Giant Ruffled Varieties

Ruffled Blue

Beautiful ruffled and duplexed mid-blue flowers, nicely arranged in fours on long, stout stems. Plants are vigorous and free flowering. A shading from deep in the center to slightly lighter at the edge of the standard greatly enhances its beauty. A truly fine addition. **\$5.00 per lb.**

Ruffled Mauve

Large, well-ruffled and duplexed flowers of a rich and pleasing clear mauve. A lighter shading toward the edge of the standards and wings and in the extreme rufflings adds life never before seen in a mauve-colored Sweet Pea. Borne in fours on long, strong stems. **\$5.00 per lb.**

Ruffled Exquisite

Scintillating salmon-cerise with a glow of stronger salmon in the standards; distinct in color, sunproof, full of life, sparkle, and refinement. Flowers are of the largest size, beautifully ruffled and duplexed, borne in fours and fives on long, strong stems. The best Ruffled. **\$5.00 per lb.**

Ruffled Purple

Rich glowing shade of purple enlivened by a sheen of coppery rose. Color is more lively under artificial light as it takes on a warmer and rosier glow. The large, well-formed flowers are well-ruffled and duplexed, and borne in fours on long, strong stems. Vigorous grower. **\$5.00 per lb.**

Fluffy Ruffles Improved

The first of the Ruffled Sweet Peas, with beautiful duplexed and frilled, long-stemmed, well-proportioned sprays of four, almost globular flowers. Dainty cream-pink of remarkable purity and softness. Sturdy grower; free bloomer. **75¢ per lb.**

Ruffled Beauty

Lovely, large, exquisitely ruffled, cream-pink blooms with a sheen of bright lilac that gives a particularly charming effect of silvery pink over amber. Very outstanding. **75¢ per lb.**

Ruffled Orchid

Lavender-pink with pastel-mauve sheen that approaches the color which is typical of certain Cattleya Orchids. Large and impressive; gracefully waved and ruffled and borne on long stems. Plants are of vigorous growth. **75¢ per lb.**

Ruffled Rose

Soft but rich shade of rose with a cast of salmon which adds warmth and attractiveness to the flower. Blooms are large, well-formed, and artistically displayed in fours on fine, long stems. **75¢ per lb.**

Lady Ruffles Improved

Beautiful soft pink self on white ground. The warm glow of color runs well down to the base of the standard and wings. Gold Medal Winner, Scottish National Sweet Pea Society. **75¢ per lb.**

Ruffled Carmine

Lovely carmine-rose of remarkable brightness, yet soft and pleasing and entirely free from any harshness and glare. The large blooms are beautifully frilled and borne quite freely. **75¢ per lb.**

Ruffled Primrose

The best deep primrose or cream. Black-seeded but free from any pink hue or blush. The flowers are of great size and exquisitely ruffled and marvelously duplexed. Quite fragrant. **75¢ per lb.**

Ruffled White

The outstanding new white-seeded white Sweet Pea. Its blooms are of gigantic size and are often borne five to a spray. They are beautifully ruffled, with duplex and triplex standards. **75¢ per lb.**

Burpee's Giant Ruffled, Mixed Colors

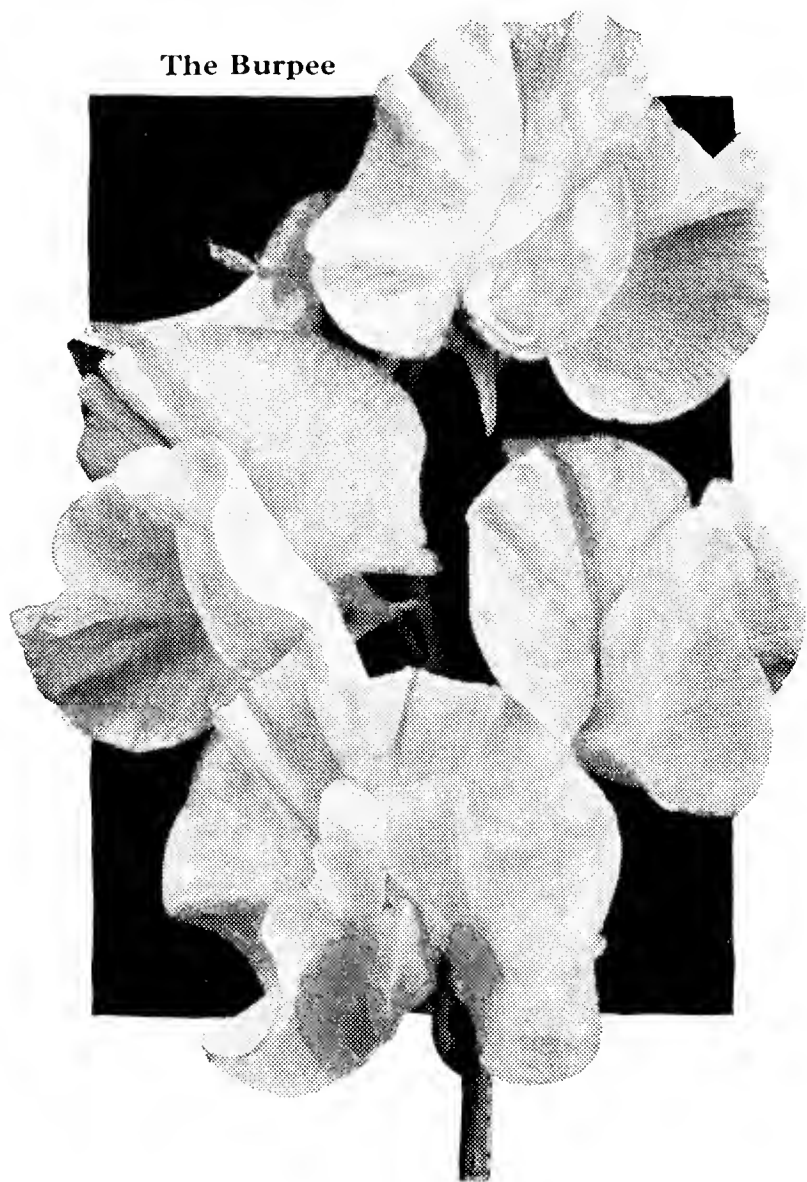

This outstanding mixture contains all the named varieties offered above, as well as other colors of which we do not have, as yet, enough stock to offer separately. Each variety is represented in the proper proportion to insure a perfect color harmony.

24 lbs. or less @ 55¢ lb.; 25 to 149 lbs. @ 50¢ lb.;
150 to 249 lbs. @ 45¢ lb.; 250 lbs. or more @ 40¢ lb.

1/4 lb. or more of any of the above varieties will be supplied at the lb. rate 23

Burpee's Prize Winning

The Burpee

The Burpee

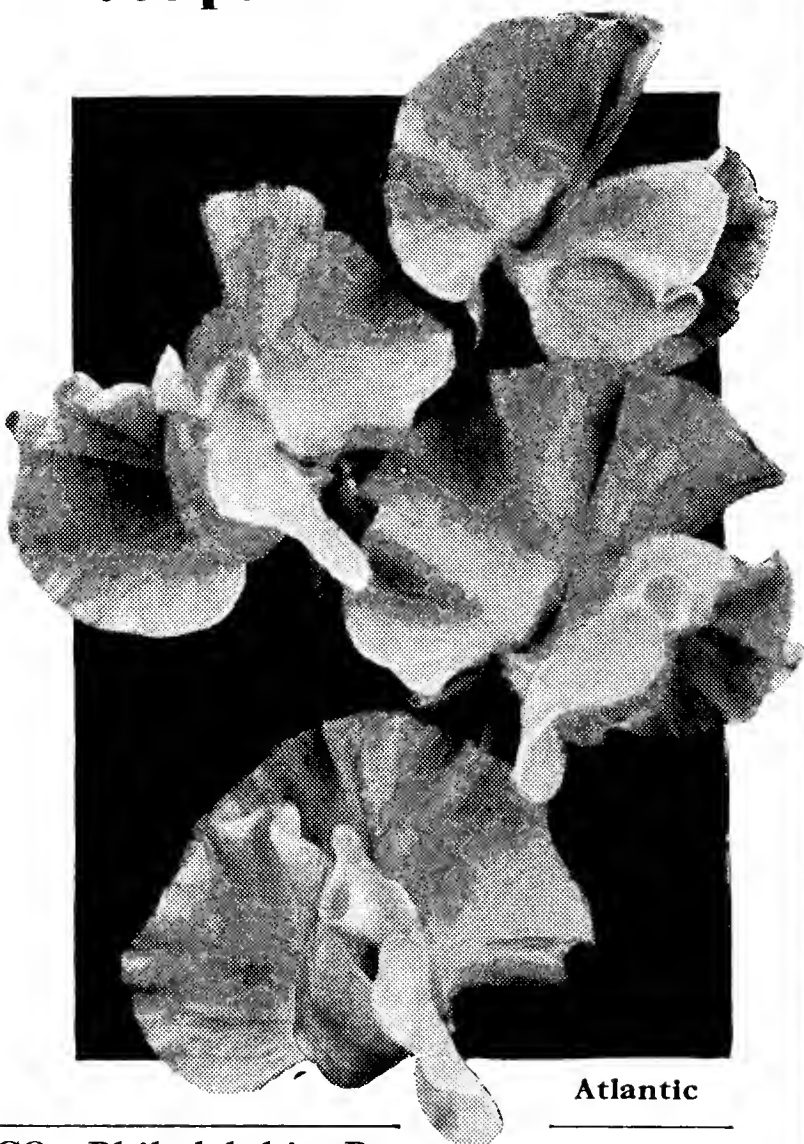

Winner of the Silver Medal, Scottish National Sweet Pea Society. A fascinating and entirely distinct shade that never fails to attract attention—soft chamois-ecru, suffused salmon. In addition to its lovely color, The Burpee is sunproof.

The flowers are well proportioned, large and freely borne on long, substantial stems. When first introduced, the color was one that had never before been known in Sweet Peas—a color that was the forerunner of many other beautiful new and unusual shades. **\$1.50 per lb.**

Atlantic

Award of Merit, National Sweet Pea Society. There is a warm softness to this variety that is most appealing. The Geranium-pink color is suffused throughout with amber and a new effect is given by the lace-like netting of cherry-bloom-pink which adds considerably to its attractiveness.

Plants are vigorous and free flowering; each spray carries four large, well proportioned and well displayed blooms. Entirely distinct in color and especially beautiful under artificial light. Atlantic is sure to be admired for its unusual, charming beauty. **70c per lb.**

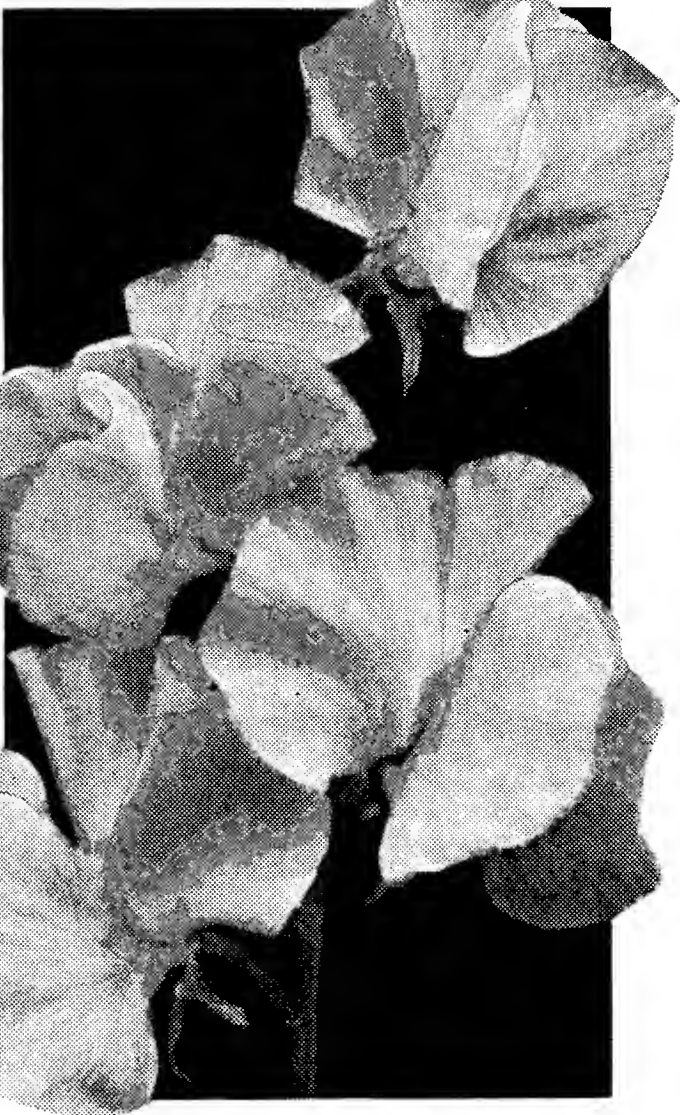

Atlantic

Giant Spencer Sweet Peas

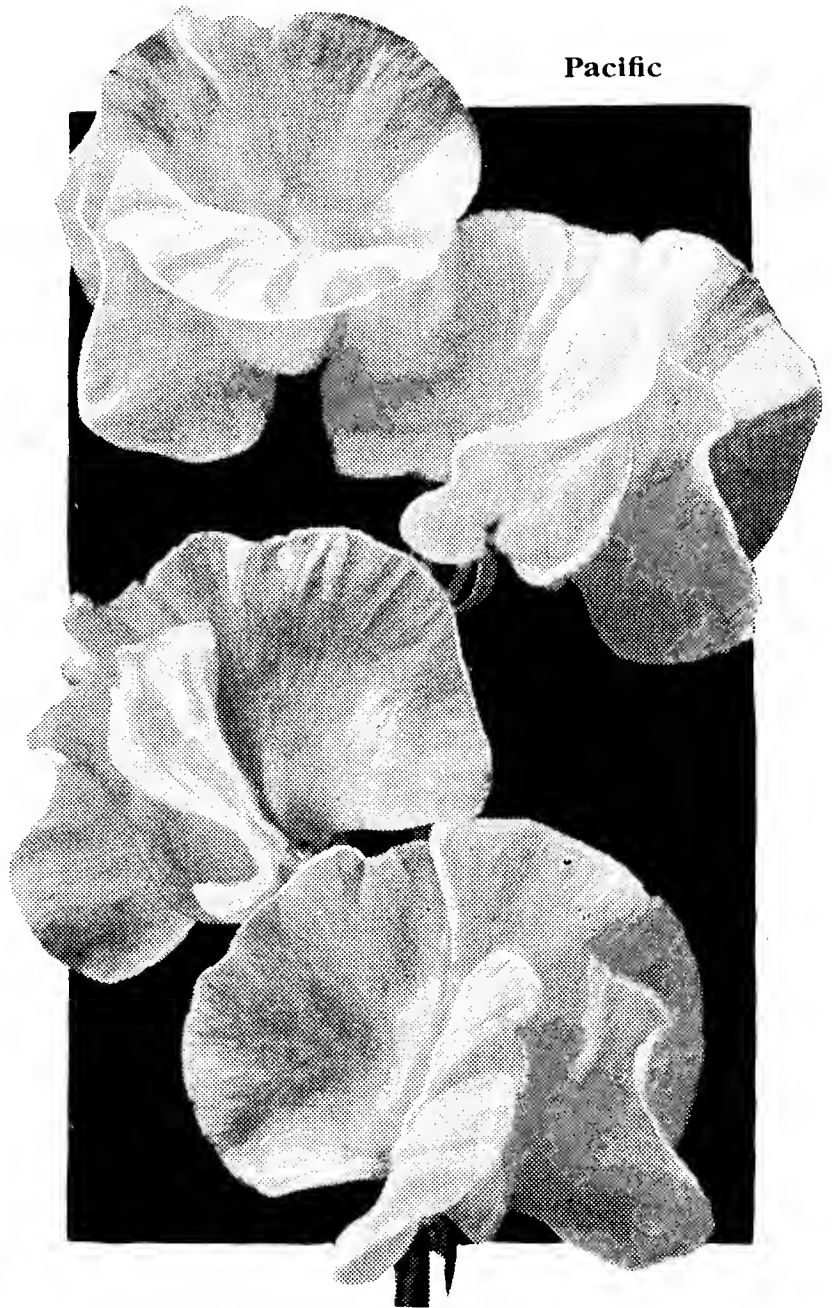

Anglo

Award of Merit, National Sweet Pea Society. Yellow in the bud stage and as the flower opens, we find a somewhat subdued yellow or deep cream suffused blush-pink, deeper at the edges and carried high up on the standard and wings. The reverse of the standard is pink extending down to the base of the petal. A true, soft cream-pink of subtle and delicate coloring. The lovely, large flowers are always duplexed and waved and carried on long, strong stems. **70c per lb.**

Anglo

Pacific

Pacific

Award of Merit, National Sweet Pea Society. An outstanding warm color—deeper fawn-pink lightly suffused and blended with coral-pink. A pleasing glow of amber adds considerably to the color value. The wings are just two shades lighter—a glorious blending of luminous golden pink and wild rose. The keel is creamy amber faintly marked with golden rose, carried well up into the wings. The flowers are large, borne in fours and excellently placed on long, strong stems. Good keeper. Strong, vigorous grower. A pink Sweet Pea that is decidedly different. **\$2.50 per lb.**

General List of Burpee's Giant Spencer Sweet Peas

Burpee's Sweet Peas are world-famous for their high quality; we have specialized in them for years. Our experts are constantly working to improve the quality of existing varieties as well as to procure, by cross-hybridizing and selecting, new colors, stronger growth of vines, larger flowers, and longer stems. Our success has been well demonstrated by the introduction of some of the finest novelties in existence, known the world over.

Burpee's Floradale Farms in California are ideally located for growing Sweet Pea seed. The deep, rich, alluvial soil and the moderately cool weather during the growing season encourage a strong, vigorous vine growth, plenty of flowers, followed by well-developed pods filled with plump, healthy and full-of-vitality seed. The most exacting care is given, not only to the growing of the crop, but also to keeping the varieties true.

	Per pound
Adonis —Rose-pink shaded salmon on cream ground	\$0.70
Adorable —Clear light cerise on cream ground70

Burpee's Giant Spencer Sweet Peas

Giant Ruffled Varieties The Most Beautiful of All

Sweet Pea experts and flower enthusiasts have proclaimed the new Burpee Ruffled type as the greatest advancement made in Sweet Peas for many years.

For illustration of a typical spray, see page 22; note the duplexness and extra frilliness. For full descriptions of the varieties now available see page 23.

Burpee's Famous Asters

Burpee's Aster Seeds are the product of carefully selected stock seed grown with the utmost care. Our fields are rogued most thoroughly and continuously during the growing season to insure the highest quality.

Increased acreage due to increased demand has reduced our growing costs so that we are able to offer you Burpee Quality Aster Seeds at the lowest prices at which we have ever sold them.

The varieties marked W.R. are Wilt-Resistant and are highly immune to the
fusarium wilt disease

Nasturtium

Double Flowering, Sweet-Scented, Semi-Dwarf or Golden Gleam Type

We are the originators and first introducers of Double Hybrid Nasturtiums. Two years ago, when we offered them to our customers, we were the only seedsmen in the world who could supply mixed colors.

Last year we offered Burpee's Double Scarlet, and this year we introduced four new colors—Burpee's Double Mahogany, Supreme (salmon-cerise), Sun Gleam (lemon-yellow), and Moonbeam (soft primrose). All are Burpee originations and were developed on our Floradale Farms in California. For illustrations and full descriptions, see pages 4 to 9. We are also growing the introductions of other growers. We suggest you cover on your requirements of Double Nasturtiums at once, taking advantage of the low prices quoted.

25 lbs. or more of any variety will be supplied at the 100 lb. rate.

	100 lbs. Per lb.	Per lb.
Burpee's Double Mahogany—Dark mahogany-red.....	\$2.80	\$3.00

For other Petunias, see pages 52, 53 and 54

Petunias

For years we have been growing Petunias, increasing our plantings more and more each season so that they are now **one of our leading specialties**. The most careful breeding and selection assure you of the very highest quality—the result of the exacting care given to the crops by our experts.

We are proud of our Petunias; all are grown on Burpee's famous Floradale Farms in California, where perfect conditions in soil and climate give the seeds a vitality and purity that is unsurpassed. We tried out nearly 1000 samples of Petunias from other growers last year on each of our experimental grounds in California and Pennsylvania. They were planted so we could get a direct comparison with the varieties that we grow. Results showed that for trueness to type and purity of color Burpee's Petunias were not excelled. These Better Petunias are offered at remarkably low prices. They are real business getters; cover on your requirements early.

Hybrida (Bedding—Spreading)

Plant selections of Zinnias for special breeding work

Zinnias

Their wide range of colors and varied forms, their easy culture, their long blooming season and the excellence of Burpee strains are all reasons for the increase in the sale of Zinnias which are now near the top of our list.

Zinnias are one of the most important flowers of today. We have worked hard with them, selecting and reselecting until we have obtained strains of the highest quality. Our customers have steadily increased their orders so that **Zinnias are now another of our leading specialties.**

Our acreage in California has been correspondingly increased to meet the heavy demand for seed. As with other crops, when our plantings are increased to a certain amount, our growing costs decrease and we are glad to pass the saving on to you in the form of **lower prices.** And remember **the low prices here listed are for Burpee Quality Seeds.**

We suggest you cover on your requirements now in order that we may plant enough land which should normally produce the quantity of seeds wanted.

Giant Double Dahlia Flowered

	Per oz.	Per lb.
Canary Bird—Primrose-yellow	\$0.25	\$3.00

Fantasy Zinnia

	Per oz.	Per lb.
Choicest Mixed —Well-rounded, medium-sized flowers, composed of a mass of twisted, tubular petals which give them the appearance of a shaggy Chrysanthemum. The color range includes red, yellow, orange, as well as many fine shades of pink, lavender and cream...	\$0.35	\$4.00

Scabiosa-Flowered Zinnia

Choicest Mixed —Differs from all other types in the formation of the flowers, which resemble those of the double Crested Cosmos. Medium sized flowers composed of a row of broad ray or outer petals, surrounding a cushion-like mound of quill-like petals similar in form to the flowers of the annual Scabiosa. Many exquisite colors, including pink, yellow, orange, crimson, scarlet and also white. Although we offer an especially fine selection, carefully and severely rogued as to type, some variations may appear45	5.00
